

APPENDIX D-4
Beneficiary Eligible Mitigation Action Certification

BENEFICIARY ELIGIBLE MITIGATION ACTION CERTIFICATION

Beneficiary Upper Sioux Community

Lead Agency Authorized to Act on Behalf of the Beneficiary Office of the Environment
(Any authorized person with delegation of such authority to direct the Trustee delivered to the Trustee pursuant to a Delegation of Authority and Certificate of Incumbency)

Action Title:	Replacement of Diesel Plow Truck
Beneficiary's Project ID:	USC VW_2020
Funding Request No.	<i>(sequential)</i> 2
Request Type: (select one or more)	<input type="checkbox"/> Reimbursement <input checked="" type="checkbox"/> Advance <input type="checkbox"/> Other (specify): _____
Payment to be made to: (select one or more)	<input checked="" type="checkbox"/> Beneficiary <input type="checkbox"/> Other (specify): _____
Funding Request & Direction (Attachment A)	<input checked="" type="checkbox"/> Attached to this Certification <input type="checkbox"/> To be Provided Separately

SUMMARY

Eligible Mitigation Action	<input checked="" type="checkbox"/> Appendix D-2 item (specify): <u>Replacement of Diesel Plow Truck (Class 8)</u>
Action Type	<input type="checkbox"/> Item 10 - DERA Option (5.2.12) (specify and attach DERA Proposal):
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):	
We plan to replace a qualifying fleet vehicle, a Class 8 2008 dump truck, with a 2020 diesel model. Please see addendum for details.	
Estimate of Anticipated NOx Reductions (5.2.3):	
After upgrades we expect to reduce NOx by .068 short tons annually, with a 86% annual reduction. Please see addendum for details.	
Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1):	
Tribal Treasurer, Sharon Odegard, Upper Sioux Community (Granite Falls, MN)	
Describe how the Beneficiary will make documentation publicly available (5.2.7.2).	
Transparency will be ensured via the USC's webpage: http://www.upperSiouxcommunity-nsn.gov/page/usc-environmental	
Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8).	
USC will cost share \$60,952.00	
Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9).	
No federal agency has contacted the Tribe about our participation in the VW Settlement.	

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10).

The Upper Sioux Community affirms that this project has the potential to impact their Community, which has historically borne a disproportionate share of the adverse impacts of such emissions by improving air quality on Trust Lands. Please see addendum for details.

CERTIFICATIONS

By submitting this application, the Lead Agency makes the following certifications:

- 1. This application is submitted on behalf of Beneficiary Upper Sioux Community, and the person executing this certification has authority to make this certification on behalf of the Lead Agency and Beneficiary, pursuant to the Certification for Beneficiary Status filed with the Court.**
- 2. Beneficiary requests and directs that the Trustee make the payments described in this application and Attachment A to this Form.**
- 3. This application contains all information and certifications required by Paragraph 5.2 of the Trust Agreement, and the Trustee may rely on this application, Attachment A, and related certifications in making disbursements of trust funds for the aforementioned Project ID.**
- 4. Any vendors were or will be selected in accordance with a jurisdiction's public contracting law as applicable. (5.2.5)**
- 5. Beneficiary will maintain and make publicly available all documentation submitted in**

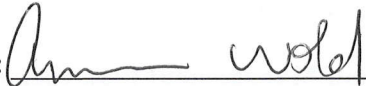

support of this funding request and all records supporting all expenditures of eligible mitigation action funds subject to applicable laws governing the publication of confidential business information and personally identifiable information. (5.2.7.2)

D-4 Attachments and Addendums for Wilmington Trust, LLC

Volkswagen Diesel Emissions Environmental Mitigation Trust
Agreement for Indian Tribe Beneficiaries

Upper Sioux Community: Office of the Environment

August 5, 2020

5.2.2 Detailed Description of Mitigation Action Items Including Community and Air Quality Benefits

Description of Mitigation Action Items

Upper Sioux Community proposes replacing one diesel freightliner – a Class 8 2008 dump truck (VIN: 1FVHC7CV68HZ78773). The above vehicle was chosen from the Roads Department due to the age and disproportionately higher level of emissions. Replacement of this older diesel vehicle will benefit the Upper Sioux Community by reducing greenhouse emissions, in turn saving fuel costs, while substantially improving air quality and energy security. Advanced fuel technologies will also benefit the surrounding soundscape, with much quieter engines. The eventual outcome is two-fold, a healthier environment with reduced nitrogen oxide (NOx) pollution, as well as noise reduction throughout the reservation. Thus, Upper Sioux Community intends to replace its designated older vehicles (2008), while adhering to the scrapping requirements described within the Volkswagen Settlement Agreement.

We plan to replace the following qualifying fleet vehicle with 2020 diesel model:

Fleet Vehicle	VIN	Sector	Vehicle/Equipment Code
2008 Dump Truck	1FVHC7CV68HZ78773	Short Haul - Combination	Class 8

Community and Air Quality Benefits

Although People of the Upper Sioux Community (USC) are known as Dakota, they come from several different bands of Dakota. The population is made up of primarily Wahpetonwan ("Dwellers in the Leaves") Dakota, however, there exists a small population of Mdewakanton ("Dwellers by Mystic Lake") and Yankton (Dwellers at the End). The USC resides on a small portion of the unceded Dakota homeland along the Minnesota River located near Granite Falls, Minnesota, bounded on the West, East, and South by Yellow Medicine County and the Minnesota River to the North. The reservation consists of approximately 1,464 acres held in trust, with an additional 309 acres owned by the Tribe, but not in trust. The land consists of floodplain, hardwood, brush, wetlands, the Minnesota River escarpment, and flat agricultural land.

The USC members residing within the Community are estimated at approximately 230 individuals. As of March 2019, Tribal membership includes a total of 521 individuals. Approximately 455 USC members reside within a 15-mile service radius area of the Reservation, encompassing Lyon, Redwood, Renville, Lac qui Parle, Yellow Medicine, and Chippewa counties. At present, there are 51 single-family dwellings, a community center-multi-purpose building, a Tribal court building, government offices (the Network Operations Center (NOC) and Roundhouse), a drinking water treatment plant and a wastewater treatment plant. The USC is governed by a five-person Board of Trustees (BOT) elected to four-year terms, with staggered elections every two-years. The Tribe owns and operates: Prairie's Edge Casino Resort, Prairie's Edge Convenience Store; Prairie View RV Park/Campground, and USC Propane.

Upper Sioux Community Mission Statement

"The mission of the Upper Sioux Community Board of Trustees is to provide culturally-based programs and services that preserve the Dakota traditions, promote and support education, healthy families, and a diversified and growing economy, leading to increased self-esteem and self-sufficiency for individual community members and the Upper Sioux Community, Pezihutazizi Oyate."

Office of the Environment Mission Statement

"To ensure the health, welfare, and safety of Tribal members and to protect and conserve the natural resources of the earth for today's and future generations. The Office of the Environment (OE) is responsible for tribal and federal environmental regulation compliance, environmental/natural resources program and infrastructure development, and related responsibilities."

This project will enable us to reduce particulate matter (PM 2.5), which will lead to annual health benefits resulting from reduced exposure to PM2.5. These benefits include the reduction of premature mortality, chronic bronchitis, asthma attacks, non-fatal heart attacks, and other health problems. Our health impacts are expected to be:

Health Benefits Results

County and State	Annual Diesel PM2.5 Reduction (short tons)
Yellow Medicine, Minnesota	0.009
Total	0.009

5.2.3

Estimate of Anticipated NOx Reductions

We utilized the United States Environmental Protection Agency’s Diesel Emissions Quantifier to prepare our estimates. Anticipated reductions of nitrogen oxides (NOx) for both of our project vehicle is as follows:

Emission Results and Health Benefits for Project: UpperSioux_2020

Emission Results

Here are the combined results for all groups and upgrades entered for your project.¹

<i>Annual Results (short tons)²</i>	NO_x	PM2.5	HC	CO	CO₂	Fuel³
Baseline for Upgraded Vehicles/Engines	0.079	0.000	0.002	0.009	16.5	1,463
Amount Reduced After Upgrades	0.068	0.000	0.001	0.004	0.0	0
Percent Reduced After Upgrades	86.0%	41.5%	46.4%	46.4%	0.0%	0.0%

<i>Lifetime Results (short tons)²</i>	NO_x	PM2.5	HC	CO	CO₂	Fuel³
Baseline for Upgraded Vehicles/Engines	0.475	0.003	0.014	0.052	98.8	8,778
Amount Reduced After Upgrades	0.409	0.001	0.006	0.024	0.0	0
Percent Reduced After Upgrades	86.0%	41.5%	46.4%	46.4%	0.0%	0.0%

¹ Emissions from the electrical grid are not included in the results.

² 1 short ton = 2000 lbs.

³ In gallons; fuels other than ULSD have been converted to ULSD-equivalent gallons.

5.2.7.2

Publicly Available Information

The Upper Sioux Community established a webpage (<http://www.upperSiouxcommunity-nsn.gov/page/usceenvironmental>) on the Tribe’s website (<http://www.upperSiouxcommunity-nsn.gov>) dedicated to the funding received from the Volkswagen Settlement Trust, which includes a link for members of the public to request additional information and/or documents related to the funding request and expenditure of funds. The Upper Sioux Community will endeavor to respond to such request within 10 business days and, when documents are requested, will advise the individual/s within that timeframe of the procedure for reviewing such documents. The Upper Sioux Community follows Minnesota law related to matters governing the publication of confidential business information and personally identifiable information, and exemptions thereto.

5.2.10

Describe how the Mitigation Action will Mitigate the Impacts of NOx Emissions on Communities that have Historically Borne a Disproportionate Share of Adverse Impacts of Such Emissions

The Upper Sioux Community affirms that this project has the potential to impact their community, which has historically borne a disproportionate share of the adverse impacts of such emissions by improving air quality on the Reservation. Indigenous populations are prone to much higher rates of asthma, diabetes, as well as chronic obstructive pulmonary diseases compared to that of the overall populace. The Minnesota Pollution Control Agency (2017) argues that the following are source contributors: permitted facilities – such as power plants, refineries, manufacturing, recyclers; transportation – like passenger cars, diesel trucks, buses, airports, railroads, recreational vehicles; residential – through home heating, backyard fires, lawn mowers, cleaning products, open burning; commercial and industrial – via large boilers, diesel equipment, gas stations, construction equipment; wildfires and prescribed burns – by way of forest fires, agricultural burning, grassland and park fires; and non-local sources (background and secondary formation – for example, pollution forming from the breakdown and/or combination of other pollutants, and the transport of emissions from natural sources such as forests or dust storms. Major sources of NOx pollution within and/or adjacent to the Upper Sioux Community are permitted facilities, commercial, industrial, agricultural, and residential. Additionally, Highway 67 runs east and west through the Reservation. Subsequently, this thoroughfare is a significant source of NOx emissions to the Upper Sioux Community and its nearby residents. Currently, the Office of the Environment is actively seeking guidance and assistance in implementing an air quality monitoring program for the Upper Sioux Community in Granite Falls, Minnesota.

Attachment C

5.2.11

Detailed Plan for Reporting on Eligible Mitigation Action Implementation

Transparency will be ensured via the Upper Sioux Community's new web page (<http://www.upperSiouxcommunity-nsn.gov/page/usc-environmental>), part of the Tribe's website (<http://www.upperSiouxcommunity-nsn.gov>) that dedicated to the funding received from the Volkswagen Settlement Trust. Volkswagen Settlement Environmental Air Quality Documents will be posted here and available by request.

Reporting on Eligible Mitigation Activities (EMA) will take place semi-annually. Reports will be posted on the Upper Sioux Community website no more than 30 days after the end of the six-month period, following the acquisition of the vehicle, and also provided to the Trustee via Intralinks. The Office of the Environment will oversee the proposed EMAs as follows:

- a) The Office of the Environment, Comptroller, and Program Accounting Director will review and audit expenditures to ensure compliance with all applicable laws.
- b) The Office of the Environment will maintain and make publicly available all documentation submitted in support of this funding request, as well as records supporting all expenditures of sequential funds, subject to applicable laws governing the publication of confidential business information and personally-identifiable information. The Office of the Environment will post documentation to the Upper Sioux Community website, under the Environmental/Air Quality tab. Furthermore, the Office of the Environment will work with our Information Technology Network Administrator in posting this documentation to ensure that all information is true, accurate, and accessible. Additional information will be provided upon request. The procedure by which the Beneficiary shall make such documentation publicly available is: requests shall be made to the Office of the Environment's Director, Amanda Wold.
- c) Upon the termination or completion, any unused funds shall be returned by Upper Sioux Community to the Trustee, to ultimately be returned to the Tribal Allocation Subaccount.
- d) The Beneficiary (Upper Sioux Community) shall submit a semiannual report to the Trustee (via Intralinks) describing the progress made, the implementations, as well as a reporting date. This report shall include a summary of the initial and final expenditures. The first report shall be submitted no later than thirty days after receiving the initial disbursement of Trust Assets.
- e) Subsequent reports will include a complete description of our status (including actual and/or projected termination date), development and implementation,

approved by the EMA. These reports will be signed by an official with the authority to submit the report for the Beneficiary and will contain an attestation that the information is true and correct, and that the submission is made under penalty of perjury.

Attachment D

5.2.6

Detailed Cost Estimates from Selected or Potential Vendors for each Proposed Expenditure Exceeding \$25,000

Detailed cost estimates associated with each replacement follow:

Original Fleet Vehicle	Vehicle Replacement Line Items	Cost
2008 Dump Truck	2020 Class 8 Vehicle	\$209,959.00
	Total	\$209,959.00

Please see attached vendor quotes for each vehicle cited above. USC will cover the amount not provided by the VW Settlement funds, approximately \$60,952.00.

Falls

SNOW EXPRESS

TRUCK MOUNT PLOW

Five (5) heavy rolled channel iron ribs. Horizontal braces for additional moldboard reinforcement.

Moldboard tilt feature. Moldboard may roll forward or back depending on snow and road conditions.

Precise moldboard curvature provides lift, roll, and throw of snow for maximum efficiency and easier plowing.

Discharge end is flanged and additionally reinforced with 1/2" roundbar.

Push frame attaches at four (4) pins — 1-1/4".

Bottom support structure is 4" x 4" x 1/2" A36MOD angle iron reinforced between bolt holes.

Standard screw-adjustable mushroom shoes.

Heavy-duty reversing push frame distributes plowing stress across the entire length of the moldboard

A-frame push plate is double tubular construction. Hitch unit will attach through large diameter hinge bolt (2") to allow the plow to oscillate to follow changing road contour.

Optional slotted trip (shown) or compression spring trip tilting bars.

Description	Weight Front	Weight Rear
WOODGRAIN CENTER INSTRUMENT PANEL		
BLACK GAUGE BEZELS		
LOW AIR PRESSURE INDICATOR LIGHT AND AUDIBLE ALARM		
2 INCH PRIMARY AND SECONDARY AIR PRESSURE GAUGES		
ENGINE COMPARTMENT MOUNTED AIR RESTRICTION INDICATOR WITH GRADUATIONS, WITH WARNING LIGHT IN DASH		
97 DB BACKUP ALARM		3
ELECTRONIC CRUISE CONTROL WITH SWITCHES ON AUXILIARY GAUGE PANEL (B DASH PANEL)		
KEY OPERATED IGNITION SWITCH AND INTEGRAL START POSITION; 4 POSITION OFF/RUN/START/ACCESSORY		
ICU3S, 132X48 DISPLAY WITH DIAGNOSTICS, 28 LED WARNING LAMPS AND DATA LINKED		
HEAVY DUTY ONBOARD DIAGNOSTICS INTERFACE CONNECTOR LOCATED BELOW LH DASH		
2 INCH ELECTRIC FUEL GAUGE		
PROGRAMMABLE RPM CONTROL - ELECTRONIC ENGINE		
ELECTRICAL ENGINE COOLANT TEMPERATURE GAUGE		
2 INCH TRANSMISSION OIL TEMPERATURE GAUGE		
ENGINE AND TRIP HOUR METERS INTEGRAL WITHIN DRIVER DISPLAY		
CUSTOMER FURNISHED AND INSTALLED PTO CONTROLS		
ELECTRIC ENGINE OIL PRESSURE GAUGE		
OVERHEAD INSTRUMENT PANEL		
SMARTPLEX HUB MODULE WITH OVERHEAD SWITCH MOUNTING, DRIVER SIDE ONLY (6 SWITCH SLOTS)	44	
AM/FM/WB WORLD TUNER RADIO WITH BLUETOOTH AND USB AND AUXILIARY INPUTS, J1939	10	
DASH MOUNTED RADIO		
(2) RADIO SPEAKERS IN CAB		
POWER AND GROUND WIRING PROVISION OVERHEAD		
ROOF/OVERHEAD CONSOLE CB RADIO PROVISION
