**CERTIFICATIONS**

By submitting this application, the Lead Agency makes the following certifications:

1. This application is submitted on behalf of Beneficiary State of Iowa, and the person executing this certification has authority to make this certification on behalf of the Lead Agency and Beneficiary, pursuant to the Certification for Beneficiary Status filed with the Court.
2. Beneficiary requests and directs that the Trustee make the payments described in this application and Attachment A to this Form.
3. This application contains all information and certifications required by Paragraph 5.2 of the Trust Agreement, and the Trustee may rely on this application, Attachment A, and related certifications in making disbursements of trust funds for the aforementioned Project ID.
4. Any vendors were or will be selected in accordance with a jurisdiction's public contracting law as applicable. (5.2.5)
5. Beneficiary will maintain and make publicly available all documentation submitted in

support of this funding request and all records supporting all expenditures of eligible mitigation action funds subject to applicable laws governing the publication of confidential business information and personally identifiable information. (5.2.7.2)

**Supplemental Information  
to the  
Appendix D-4 Beneficiary Eligible Mitigation Action Certification Summary**

**Appendix D-4 Summary**

**Eligible Mitigation Action Type:**

Appendix D-2 item: Item 6. Class 4-7 Local Freight Trucks

**Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1):**

The Iowa Department of Transportation (DOT) and its working group clustered the 10 EMAs into five categories and established a target percentage of VW funds to be spent on each category. This funding request fits into Category 2, Class 4-8 local Freight & Class 8 Drayage Trucks. Iowa's BMP targeted a total of \$3,150,000 toward this EMA over three funding cycles. This second funding cycle targeted \$1,050,000, but only awarded \$275,822.

**Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):**

This second funding cycle for Iowa's Category 2, Class 4-8 local Freight & Class 8 Drayage Trucks projects will permanently take away 11 1992-2009 engine model year class 8 local freight trucks. They will be replaced with 11 new diesel trucks.

Replacing these trucks should reduce contact to high concentrations of NO<sub>x</sub> among the drivers but also reduce air pollution exposure among vulnerable populations across the state. All projects were scored competitively on community and air quality factors such as: achieving significant, quantifiable reductions on NO<sub>x</sub> emissions; counties with higher mobile NO<sub>x</sub> measurements; counties with a higher share of previously registered, non-compliant VW subject vehicles; areas of concern for vulnerable populations below poverty level, age, and race; counties with higher rates of asthma and heart disease hospitalizations; and counties with a higher share of point source NO<sub>x</sub> emissions.

Estimated lifetime air quality benefits from these projects have the following emissions reductions: 23.22 short tons for NO<sub>x</sub>, .79 short tons for particulate matter 2.5 (PM<sub>2.5</sub>), 1.01 short tons for hydrocarbons (HC), 4.06 short tons for carbon monoxide (CO), and 330.21 short tons for carbon dioxide (CO<sub>2</sub>).

**Estimate of Anticipated NO<sub>x</sub> Reductions (5.2.3):**

The estimate of anticipated NO<sub>x</sub> reductions from these projects are 23.22 short tons (lifetime).

**Identification of Government Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1):**

Iowa Department of Transportation - Planning, Programming, and Modal Bureau

**Describe how the Beneficiary will make documentation publicly available (5.2.7.2):**

The public may access documents pursuant to Iowa Code, Chapter 22 and 761 I.A.C.4. In addition, information will be available on Iowa's VW website at <https://www.iowadot.gov/vwsettlement>.

**Describe any cost share requirement to be placed on each NO<sub>x</sub> source proposed to be mitigated (5.2.8):**

Projects selected for funding will be reimbursed up to the maximum dollar amount per vehicle or the percentage of total costs per vehicle, whichever is less.

Class 4-7 Local Freight Truck projects will be reimbursed as such: \$20,000 per vehicle or 25% of total project costs for diesel replacements; \$30,000 per vehicle or 25% of total project costs for alternative fuel/hybrid replacements; \$40,000 per vehicle or 45% of total project costs for all-electric replacements; and if charging infrastructure is required in conjunction with an all-electric replacement, the applicant may receive up to \$10,000 per vehicle toward those costs or 45% of total installation costs, whichever is less.

**Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9):**

On February 22, 2018, the Iowa DOT emailed representatives from the National Park Service, U.S. Fish and Wildlife Service, and Department of Agriculture, providing a copy of the State Trust Agreement and informing them of the availability of the funds.

**If applicable, describe how the mitigation action will mitigate the impacts of NO<sub>x</sub> emissions on communities that have historically borne a disproportionate share of the adverse impacts of emissions (5.2.10):**

To ensure health and environmental benefits for areas that bear a disproportionate share of air pollution and people most adversely affected by Volkswagen's actions, the Iowa DOT's project

selection was influenced through the scoring and ranking of projects that were located in 1) counties with higher concentrations of mobile source NO<sub>x</sub> emissions, 2) counties with higher concentrations of non-point source NO<sub>x</sub> emissions, 3) counties with higher rates of asthma and heart failure, 4) counties with higher rates of poverty, young and elderly populations, and non-white populations, and 5) counties with a higher share of registered non-compliant Volkswagen subject vehicles.

### DETAILED PLAN FOR REPORTING ON ELIGIBLE MITIGATION ACTION IMPLEMENTATION

---

Consistent with 5.2.11 of the *Environmental Mitigation Trust Agreement for State Beneficiaries (Trust)*, Beneficiaries must submit with their Appendix D-4 request for Eligible Mitigation Action funding a detailed plan for reporting on Eligible Mitigation Action implementation. The Iowa Department of Transportation (DOT) intends to achieve the Beneficiary Reporting Obligations as outlined with 5.3 of the Trust.

The Iowa DOT is devoted to carrying out the reporting requirements of the Trust, according to 5.3, Beneficiary Reporting Obligations, as described below:

For each Eligible Mitigation Action, no later than six months after receiving its first disbursement of Trust Assets, and thereafter no later than January 30 (for the preceding six-month period of July 1 to December 31) and July 30 (for the preceding six-month period of January 1 to June 30) of each year, each Beneficiary shall submit to the Trustee a semiannual report describing the progress of implementing each Eligible Mitigation Action during the six-month period leading up to the reporting date (including a summary of all costs expended on the Eligible Mitigation Action through the reporting date). Such reports shall include a complete description of the status (including actual or projected termination date), development, implementation, and any modification of each approved Eligible Mitigation Action. Beneficiaries may group multiple Eligible Mitigation Actions and multiple sub-beneficiaries into a single report. These reports shall be signed by an official with the authority to submit the report for the Beneficiary and must contain an attestation that the information is true and correct and that the submission is made under penalty of perjury. To the extent a Beneficiary avails itself of the DERA Option described in Appendix D-2, that Beneficiary may submit its DERA Quarterly Programmatic reports in satisfaction of its obligations under this Paragraph as to those Eligible Mitigation actions funded through the DERA Option. The Trustee shall post each semiannual report on the State Trusts public-facing website upon receipt.

**ATTACHMENT D**  
**DETAILED COST ESTIMATES FROM SELECTED OR POTENTIAL VENDORS FOR EACH PROPOSED**  
**EXPENDITURE EXCEEDING \$25,000.**

---

Consistent with 5.2.6 of the *Environmental Mitigation Trust Agreement for State Beneficiaries (Trust)*, Beneficiaries must submit for each proposed expenditure exceeding \$25,000, detailed cost estimates from selected or potential vendors.

The Iowa DOT is devoted to carrying out the reporting requirements of the Trust, according to 5.2.6, as detailed. Project applicants were requested to submit the total cost for each new vehicle in their grant application and the source of their estimate. The applicants' source of the estimate could be based on: 1) informal quotes from vendors with no obligation to purchase, 2) quotes received on a recent similar project, 3) actual costs of a recently completed similar project, or 4) other, of which they would need to specify in the application.

Class 4-7 Local Freight Truck projects will be reimbursed as such: \$20,000 per vehicle or 25% of total project costs for diesel replacements; \$30,000 per vehicle or 25% of total project costs for alternative fuel/hybrid replacements; \$40,000 per vehicle or 45% of total project costs for all-electric replacements; and if charging infrastructure is required in conjunction with an all-electric replacement, the applicant may receive up to \$10,000 per vehicle toward those costs or 45% of total installation costs, whichever is less.

Please see the following page for a breakdown of cost estimates from awarded applications.
