If anticipated outputs/outcomes and/or timelines/milestones are not met, why not? Did you encounter any problems during the reporting period which may interfere with meeting the project objectives?	<p><u>2019 Program:</u> Financial uncertainty, public health measures, and supply chain disruptions due to the COVID-19 pandemic have delayed ordering, manufacture, and delivery of replacement vehicles and the completion of several irrigation projects. The two remaining diesel truck projects (City of Lincoln, Gretna Sanitation, two trucks each) anticipate receiving delivery of new vehicles by September 2022.</p> <p><u>2020 Program:</u> On schedule for completion by September 2022.</p>
How do you propose to remedy any problems? If anticipated outputs/outcomes and/or timelines/milestones are not met, why not? Did you encounter any problems during the reporting period which may interfere with meeting the project objectives?	<p><u>2019 Program:</u> Financial uncertainty, public health measures, and supply chain disruptions due to the COVID-19 pandemic have delayed ordering, manufacture, and delivery of replacement vehicles. Truck projects involve two vendors (truck cab/chassis and specialized body), which compound the delays. The City of Lincoln has received 2 replacement plow trucks and will complete the project by end of August. The remaining project (Gretna Sanitation, one refuse truck) expects delivery of the new truck by September 2022.</p> <p><u>2020 Program:</u> Supply chain delays have also affected 2020 truck replacement projects. Metropolitan Utilities District (Omaha) reported that the chassis for two utility trucks were delivered to the upfitters, with final delivery expected later this year. City of Lincoln Fleet Services has been told to expect delivery of two street maintenance trucks in early 2023.</p>
How do you propose to remedy any problems? Identify how and the date you will get back on course to meet the anticipated outputs/outcomes and/or timelines/milestones specified in the project work plan.	With the deadline for 2019 projects extended to September 2022, NDEE expects to complete all 2019 projects (with the possible exception of Gretna Sanitation) on time. Several 2020 truck replacement projects will require extension of NDEE project agreements into 2023, and we will request a no-cost extension of the grant to allow completion of these projects.
If any cost-shares are reported for this Reporting Period in Table 1 above, identify the source of the funds.	Mandatory cost share funds were provided by the rebate recipients for their projects.

Was any program income generated during the reporting period? Identify amount of program income, how it was generated, and how the program income was/will be used.	\$1,194.00 in program income was reported during the quarter.
Did any public relations events regarding this grant take place during the reporting period?	No public relations events were scheduled during the quarter.

Please also list any other state websites used for outreach related to the State DERA Grant Program.	http://dee.ne.gov/NDEQProg.nsf/OnWeb/NCDGP
What project activities are planned for the next reporting period?	NDEE will monitor the remaining 2019 and 2020 program projects to determine whether adequate progress is being made and pay rebates for projects as they are completed.
