

APPENDIX D-4
Beneficiary Eligible Mitigation Action Certification

BENEFICIARY ELIGIBLE MITIGATION ACTION CERTIFICATION

Beneficiary State of Mississippi

Lead Agency Authorized to Act on Behalf of the Beneficiary Mississippi Department of Environmental Quality
(Any authorized person with delegation of such authority to direct the Trustee delivered to the Trustee pursuant to a Delegation of Authority and Certificate of Incumbency)

Action Title:	Airport Ground Support Equipment
Beneficiary's Project ID:	Meridian Airport Authority
Funding Request No.	<i>(sequential)</i> 1
Request Type: (select one or more)	<input type="checkbox"/> Reimbursement <input checked="" type="checkbox"/> Advance <input type="checkbox"/> Other (specify): _____
Payment to be made to: (select one or more)	<input checked="" type="checkbox"/> Beneficiary <input type="checkbox"/> Other (specify): _____
Funding Request & Direction (Attachment A)	<input checked="" type="checkbox"/> Attached to this Certification <input type="checkbox"/> To be Provided Separately

SUMMARY

Eligible Mitigation Action	<input checked="" type="checkbox"/> Appendix D-2 item (specify): <u>7</u>
Action Type	<input type="checkbox"/> Item 10 - DERA Option (5.2.12) (specify and attach DERA Proposal):
Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): See Attached	
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): See Attached	
Estimate of Anticipated NOx Reductions (5.2.3): See Attached	
Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1): See Attached	
Describe how the Beneficiary will make documentation publicly available (5.2.7.2). See Attached	
Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8). See Attached	
Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9). See Attached	

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10).
See Attached

ATTACHMENTS
(CHECK BOX IF ATTACHED)

- Attachment A Funding Request and Direction.
- Attachment B Eligible Mitigation Action Management Plan Including Detailed Budget and Implementation and Expenditures Timeline (5.2.4).
- Attachment C Detailed Plan for Reporting on Eligible Mitigation Action Implementation (5.2.11).
- Attachment D Detailed cost estimates from selected or potential vendors for each proposed expenditure exceeding \$25,000 (5.2.6). [Attach only if project involves vendor expenditures exceeding \$25,000.]
- Attachment E DERA Option (5.2.12). [Attach only if using DERA option.]
- Attachment F Attachment specifying amount of requested funding to be debited against each beneficiary's allocation (5.2.13). [Attach only if this is a joint application involving multiple beneficiaries.]

CERTIFICATIONS

By submitting this application, the Lead Agency makes the following certifications:

1. This application is submitted on behalf of Beneficiary State of Mississippi, and the person executing this certification has authority to make this certification on behalf of the Lead Agency and Beneficiary, pursuant to the Certification for Beneficiary Status filed with the Court.
2. Beneficiary requests and directs that the Trustee make the payments described in this application and Attachment A to this Form.
3. This application contains all information and certifications required by Paragraph 5.2 of the Trust Agreement, and the Trustee may rely on this application, Attachment A, and related certifications in making disbursements of trust funds for the aforementioned Project ID.
4. Any vendors were or will be selected in accordance with a jurisdiction's public contracting law as applicable. (5.2.5)
5. Beneficiary will maintain and make publicly available all documentation submitted in

support of this funding request and all records supporting all expenditures of eligible mitigation action funds subject to applicable laws governing the publication of confidential business information and personally identifiable information. (5.2.7.2)

ATTACHMENT

Funding Request and Direction

Eligible Mitigation Action Type Appendix D-2 item (specify): 7 Airport Ground Support Equipment

Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1):

Mississippi's BMP allocates \$9,870,000 to the replacement or repowering of on/off-road diesel equipment. Airport ground support equipment has been allotted 5% of those funds. The selected project will be completed in Lauderdale County.

Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):

This request is for \$495,000.25 in Trust funds: \$430,435 for the project at Meridian Airport and \$64,565.25 for administrative cost. The estimated lifetime emission reductions are 33.763 tons of NOx and 5185.482 tons of additional pollutants (PM2.5, HC, CO and CO2).

Meridian Airport was awarded \$430,435 for up to 33% of the cost to replace seven diesel airport ground support devices with electric equivalents (three tugs, one forklift, one aerial lift, and two GPUs). The Meridian Airport Authority is a government entity that operates Key Field in Meridian, Mississippi. Key field is a 1,000 acre property with two runways and numerous taxiways. It also owns the longest public runway in Mississippi at 10,003 feet and is the busiest airport in Mississippi by aircraft traffic count. They house the Mississippi Air National Guard, the Mississippi Army National Guard, two medical helicopters, and over 65 civilian aircrafts. The Meridian Airport is a full service facility that fuels and maintains small aircraft as well as a maintenance facility for larger aircraft from over the Southeast US.

Estimate of Anticipated NOx Reductions (5.2.3)

MDEQ used the US EPA's Diesel Emission Quantifier to estimate the anticipated annual reductions of NOx, PM2.5, HC, CO and CO2.

Project	Annual Emission Reductions (tons/yr)				
	NOx	PM2.5	HC	CO	CO2
Meridian Airport	1.718	0.135	0.168	0.916	265.6
Totals	1.718	0.135	0.168	0.916	265.6

Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditure of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7. 1)

Mississippi Department of Environmental Quality

Describe how the Beneficiary will make documentation publicly available {5.2.7.2}

The Mississippi Department of Environmental Quality has established a VW Settlement website (<https://www.mdeq.ms.gov/air/vw-mitigation-trust/>) to provide information about the settlement and provide points of contacts for questions. Applications will be posted to this site as well as an announcement of projects selected for funding.

During the development of the BMP, MDEQ conducted three public stakeholder meetings in north, central and south Mississippi attended by concerned citizens, industry, environmental groups, and government entities in which DEQ presented information about the settlement and heard public comments and suggestions for the BMP. An email list was established of trade organizations, governmental entities, industries, environmental groups, and any other interested parties to send program information and updates. That same list was used for project solicitations.

Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8)

MDEQ will use Mitigation Trust Funds to provide up to 75% of the cost to replace seven pieces of eligible airport ground support equipment. Meridian Airport is required to provide at least 25% of the replacement cost.

Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9):

The Mississippi Department of Environmental Quality sent the required notifications to the specified U.S. Government Agencies on February 26, 2018.

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10).

The Meridian Airport Authority is located in Lauderdale County, Mississippi. Lauderdale County is one of the Mississippi counties where ozone levels are elevated compared to the rest of the state. NAAQS is 70 ppb and from the 2015-2017 study, Lauderdale County was at 56 ppb. The Meridian Airport Authority has the busiest airport in Mississippi by traffic count. By replacing these diesel engines with electric equivalents, there will be a direct and immediate emissions benefit to those working and living in Lauderdale County.

We respectfully submit this quotation for the following NEW Toyota Electric Tow Tractor (1 each):

Toyota...Proud to be the world's #1 forklift manufacturer!

TOYOTA MODEL 3TE25, Electric Sit-Down Tow Tractor (UL-E Conformity), quality engineered with the following specification:

- Pneumatic Tires
- Electric Battery Powered

Designed to meet the very high cycle requirements of Toyota's own production plants and the demands of the ground support industry, the Toyota 3TE25 Electric Tow Tractor is equipped with a range of performance and productivity features to exceed the demands of your toughest workplace environments.

OPERABILITY / PERFORMANCE

Featuring a Toyota designed AC Drive and MOSFET transistor control system rated to IP65 protection, the 3TE25 offers smooth acceleration, improved battery efficiency, and top travel speed loaded or unloaded. The forklift style drive motor/rear axle assembly offers transverse mounting of the motor to allow a very compact drive assembly while delivering excellent durability, power, visibility, and gradeability. A highly expressive, graphical multi-function display offers on-board diagnostics, 2 speed travel control, password protected performance parameters, full hour meter functions, OPS indicator, power meter, slope sensing auto-power mode selector indicator, programmable speed control, wheel indicator, and QR code display.

Photo may portray optional equipment not included in your quotation.

RELIABILITY / DURABILITY

To give the reliability and durability you expect from a Toyota, the 3TE25 is built using forklift and industrial style components, not automotive style components, to create a true industrial tow tractor. Some of the features you will find:

- Heavy Gauge Steel Frame Construction
- Heavy Gauge Steel Front Panel
- Service Items Accessible with Minimum Tools
- Helical Transmission Gears
- Hydraulic Front Disc and Rear Drum Brakes
- Brushless AC Dual Drive Motors

- Remote Release Rear Single-Stage Pin-Type Hitch
- LED Lights are Recessed to Prevent Damage
- Tight Turning Radius Steer Axle with Power Steering

ERGONOMICS

The 3TE25 was designed with operator productivity as a primary concern. It features an ergonomically designed operator's compartment with easy operation of all controls and pedals to help reduce operator fatigue. It includes items such as a wide floorboard with open entry steps for easy access, electric direction/speed control lever for fingertip control, and a small diameter tilt steering wheel with hydraulic power steering. Visibility around the tractor is excellent with almost no points to block the operator's vision of important functions. It also features a dash mounted LCD display with direct sightlines for the operator.

Towing Capacity **Towing Capacity - 59,500 lbs.**

Speeds Travel Speed: 15.50 mph

Voltage 80 Volt Electrical System

Steering Hydraulic Power Steering

Battery Compartment 28" (L) x 40.5" (W) x 30.9" (H)

Wheels and Tires Front Tires: 175R13-8PR (LT)
Rear Tires: 28x8-15-12PR (I)

Additional Equipment U.S.A. Spec
80V DesertHog Battery
Matching Opportunity Charger

Other Outstanding Toyota Features

- Radial Front, Bias Ply Rear Tires
- Double Action Hand Parking Brake
- Operator Presence Sensing System (OPSS)
- Key type On/Off Switch
- Selectable Auto Power Off between 2-60 Minutes Without Operation
- Vinyl Operator's Seat
- Automotive-Style Direction Controls
- Driver's Side Assist Grip

Some standard items listed within this quotation may be replaced or altered due to optional equipment.

Warranty 12 Months or 2,000 hours whichever occurs first: Basic
24 Months or 4,000 hours whichever occurs first: Powertrain

Warranty coverage for non-standard option components will be covered by the manufacturer of that component and not covered under the Toyota forklift standard or powertrain warranty.

We offer a Toyota factory authorized warranty on all new Toyota Material Handling Equipment.

UPGRADE TO TOYOTA 360 SUPPORT PLUS!

Includes 1 year of scheduled planned maintenance (up to 4) and additional product assurance.

*Not applicable to all models. See here for more details: www.ToyotaForklift.com/360-support

Investment	Price-Toyota Model 3TE25 as specified above:	\$63,453	Each
	Net Price:	\$63,453	Each

**Financing and
 Maintenance**

A broad range of competitive and flexible financing options are available through Toyota. Financing requires credit approval. Terms and conditions are subject to change.

In addition, Full Maintenance and Planned Maintenance programs are available.

The Lilly Company offers our Service Plus Contract Maintenance Program. This program includes all scheduled PM's, Parts, and Labor for one flat fee per month on site. This service can be for any length of time. 24, 36, 48 and 60 months are most common for budgeting your maintenance costs. Full Maintenance does not cover operator abuse or neglect, lights, seats or tires. Tires and or seats and or lights can be added to your agreement. Your monthly cost is based on your yearly operating hours and your specific application of each lift truck.

The Lilly Company also offers an alternative Contract Maintenance Program in which we partner with Toyota to provide Factory Extended Warranty Coverage that covers all components (with the exception of wearables) for the selected term. This plan also includes all basic PM Service visits and PM Parts.

Should you choose not to protect your equipment with a Contract Maintenance Agreement, The Lilly Company also offers a Planned Maintenance Program based on your application, environment and hours used. Upon delivery of equipment, a Customer Service Representative will be contacting you regarding the benefits of this program. Failure to properly maintain and inspect this equipment could lead to increased and unnecessary maintenance expense.

2EP10000 - 10000 lb. Capacity 80 Volt Electric 4-Wheel Pneumatic Tire Lift Truck

HIGHLIGHTS

Uncompromising Performance

- 80V Electrical System
- AC Drive and Hydraulic Control Systems
- AC Motors (output depends on STD or HP OPT)
- AC Electric Power Steering (STD on 2EP11000)
- Not available on 2EPC9000 (Optional on all other models)
- Standard Tires:
 - Solid Pneumatic Tires, Front 28x12.5-15
 - Solid Pneumatic Tires, Rear 21x8-9
 - Solid Pneumatic Tires, Rear 23x10-12 (2EP8500 & 2EP11000)

Designed for Maximum Runtime

- Advanced Regenerative Braking
- Highly Sealed Against Dust and Moisture
- Motors Sealed to IP54 Standards
- Saab Electrical Connectors Sealed to IP65 Standards
- Easy Battery Maintenance via Side Steel Battery Compartment Door
- Horn
- 500 Hour Service Intervals

Superior Operator Comfort

- Highly Adjustable Armrest with Horn Button
- Tilt and Telescoping Steering Column
- Rubber Floor Mat
- Operator's Floating Cabin
- Clipboard / Paper Holder
- Ample Storage for Operator Work Tools
- Two Different Size Cup Holders
- Comfort Display (includes an automatic parking brake)

Increased Operator Awareness

- Premium Display Panel including:
 - 5-Level Performance Mode Selector
 - Drive / Steering Wheel Direction Indicator
