[BENEFICIARY]

SUMMARY Supplement Appendix D-4

Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1)

Montana's Beneficiary Mitigation Plan posted in November 2018 proposed to use 55% of Montana's initial allocation, or approximately \$6.93 million in funding to help replace onroad heavy duty diesel vehicles (with engine model year 2009 or older), as authorized under Eligible Mitigation Action 6.

Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2)

Montana DEQ solicited applications from public and private entities across Montana to partially reimburse the replacement and scrapping of projects authorized under Eligible Mitigation Action 6. Two applications for street sweepers were received from the City of Helena and Town of Superior. Each municipality owns and operates street sweepers that are eligible for replacement under EMA6. Trust funds will help the municipalities replace two street sweepers with battery-electric replacements. The street sweepers will operate in Lewis & Clark and Mineral Counties, respectively, each of which are priority areas identified in DEQ's Beneficiary Mitigation Plan. The sweepers operate in areas that have high levels of PM-2.5 pollution and diesel PM pollution when compared with the rest of Montana.

Estimate of Anticipated NOx Reductions (5.2.3)

Montana DEQ estimated NOx emission reductions using the Alternative Fuel Life-Cycle Environmental and Economic Transportation (AFLEET) Tool provided by Argonne National Laboratories (<https://greet.es.anl.gov/afleet>). We calculated reductions for each street sweeper using the provided fuel type, usage, and replacement fuel. We estimate total reductions in NOx emissions of 3,356 pounds total over five years.

Describe how the Beneficiary will make documentation publicly available (5.2.7.2)

MTDEQ maintains a webpage describing the Montana's Volkswagen Environmental Mitigation Program for State Beneficiaries. The Volkswagen Mitigation Trust webpage can be found at: <https://deq.mt.gov/energy/Programs/fuels>. Copies of the funding request certifications to the Trustee will be available through links on this web page.

Application materials, reimbursement requests, and other documentation submitted by applicants and funding recipients for Montana's Volkswagen Environmental Mitigation Program are available to the public either through the website, or upon request pursuant to Montana Code Annotated Title 2, chapter 6, part 10.

Describe any cost-share requirement to be placed on each NOx source proposed to be mitigated (5.2.8):

Street sweepers purchased by local governments were eligible for reimbursement up to 85% of the cost of each new sweeper. Helena and Superior will each receive a maximum of \$500,000 for replacement of one street sweeper each with an new all-electric model and the charging infrastructure associated with each new equipment. Helena's estimated cost share will be 35% with a total purchase price expected to be \$773,258 and Superiors estimated cost share will be 20% with a total purchase price expected to be \$624,758.

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10)

Each street sweeper funded by this request will replace older diesel sweepers operating in Lewis & Clark and Mineral Counties, respectively. Both counties are identified in Montana's Beneficiary Mitigation Plan as priority counties based on annual mobile sources of on-road NOx emissions.

The service areas in Helena and Superior shows higher levels of poverty and pollution, asthma rates and other environmental and economic indicators when compared with the rest of Montana using EPA's EJSCREEN tool at (<https://www.epa.gov/ejscreen>). Replacing older street sweepers with electric equipment reduces exposure to diesel pollution in this area.

ATTACHMENT B**PROJECT MANAGEMENT PLAN INCLUDING DETAILED BUDGET AND IMPLEMENTATION AND EXPENDITURES TIMELINE (5.2.4)**

This funding request will provide advance funds to the Montana Department of Environmental Quality (MTDEQ) for the implementation of airport ground support equipment replacements under the Montana Clean Truck, Bus & Airport Equipment Program. The actions covered by this funding request are consistent with Eligible Mitigation Action 6 (Class 4-7 Local Freight Trucks (Medium Trucks)) of the State Trust Agreement and with Montana's Beneficiary Mitigation Plan (page 7), which allocated 55 percent of Montana's Volkswagen EMT funding for onroad heavy duty diesel vehicles.

STREET SWEEPERS TO BE FUNDED THROUGH THIS REQUEST

Two all-electric street sweepers will be funded through this request. The successful applicants were the City of Helena and Town of Superior.

ATTACHMENT C

DETAILED PLAN FOR REPORTING ON ELIGIBLE MITIGATION ACTION IMPLEMENTATION (5.2.11)

The Montana Department of Environmental Quality (DEQ) will provide detailed reporting on this funding request under Eligible Mitigation Action 6 (Class 4-7 Local Freight Trucks (Medium Trucks)) in two ways: 1) timely updates to DEQ's Volkswagen Environmental Mitigation Program web page and 2) semi-annual reports to the Trustee as required by subparagraph 5.3 of the Environmental Mitigation Trust for State Beneficiaries.

DEQ Website

DEQ has a webpage dedicated to the Volkswagen Environmental Mitigation Program that includes projects and actions that are eligible for funding and the status of funding. The website is found at: <https://deq.mt.gov/energy/Programs/fuels>. Copies of funding request certifications to the Trustee will be available through this web page. This page will link to current and past projects and categories funded through the Trust.

Application materials, reimbursement requests, and other documentation for Montana's Volkswagen Environmental Mitigation Program are available to the public either through the website, or upon request pursuant to Montana Code Annotated Title 2, chapter 6, part 10.

Semi-Annual Reports to the Trustee

As required by subparagraph 5.3 of the Environmental Mitigation Trust Agreement for State Beneficiaries, DEQ will submit a report to the Trustee within six months of the first disbursement and thereafter no later than January 30 and July 30 for preceding six-month periods. These reports will describe the progress implementing current and any other Eligible Mitigation Action ongoing during the reporting period. These reports will include a summary of all costs expended and a complete description of the status (including actual or projected termination date), development implementation, and any modification of the Eligible Mitigation Action. These semi-annual reports to the Trustee will be available for public access through links on the main Volkswagen Trust page on the DEQ website.
