## ADDENDUM

### Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2)

During the fourth funding cycle of the Volkswagen Settlement Environmental Mitigation Trust for Indian Tribes, the Pueblo of Laguna will replace one government-owned diesel vehicle, a Class 6 1997 Ford F-800 dump truck:

Year	Make	Model	VIN
1997	Ford	F-800	1FDNF80C9VVA14241

This dump truck is used by the Pueblo to move and deliver materials. The truck is also utilized to plow and salt tribal road during the winter season. The Pueblo of Laguna will replace it with a new, low-emission diesel 2023 108SD Freightliner dump truck:

Vehicle (EMA #6) Expenses						
Year	Make	Model	Description	Item Cost	Quantity	Total Cost
2023	Freightliner	108SD	Dump truck	\$144,751.00	1	\$144,751.00
<b>Vehicle Total</b>						<b>\$144,751.00</b>

Costs have been obtained from qualified dealers and reflect delivery to Pueblo of Laguna. The original vehicles will be scrapped. The Pueblo of Laguna understands the term "scrapped" means to render inoperable and available for recycle, and, at minimum, to specifically cut a 3" or larger hole in the engine block of the vehicle, and to disable the chassis by cutting the vehicle's frame rails completely in half.

The Tribe will also acquire Light-Duty Zero-Emission Supply Equipment, to establish three multi-port electric vehicle fast-charging stations:

Light-Duty Zero-Emission Supply Equipment (EMA #9) Expenses				
Electric Vehicle Charging Equipment Project Component	Description	Item Cost	Quantity	Total Cost
Dual-port ChargePoint station CT4021-GW1	Quote includes installation at Pueblo of Laguna Fleet Garage	\$2,421.11	1	\$2,421.11
Double-charging stations type Charge Point CT4021	Quote includes installation at Route 66 Casino Hotel and Casino	\$14,700.19	2	\$29,400.38
<b>ZEV Total</b>				<b>\$31,821.49</b>

One charging station will be located at the Pueblo of Laguna Fleet Garage (adjacent to NM Highway 124) and the other at the Pueblo of Laguna Route 66 Hotel and Casino (adjacent to U.S. Interstate 40). The casino property is well-lit, has sufficient electrical capacity for the charging station, and maintains 24/7 desk service and 24/7 security inside and throughout the complex. These electric vehicle charging stations are part of the Pueblo's plan to lower emissions and obtain more electric vehicles to use as tribal fleet vehicles in the future. The community and air quality benefits from the mitigation project will include energy efficiency and a reduction in pollution, including reduced emissions of NOx, reduced emission of noise, reduced fuel consumption, and reduced fuel costs.

Total administrative costs are estimated as follows:

<b>Administrative Expenses</b>				
<b>Item</b>	<b>Description</b>	<b>Item Cost</b>	<b>Quantity</b>	<b>Total Cost</b>
Contractor Support (see quote in Attachment D)	Installation of Charge Point CT4021 at Pueblo of Laguna Fleet Garage	\$11,210.00	1	\$11,210.00
	Installation of Charge Point CT4021 at Route 66 Casino Hotel and Casino	\$13,201.50	2	\$26,403.00
<b>Administrative Total</b>				<b>\$37,613.00</b>
Administrative limit (15% of project total: \$214,185.49)				\$32,127.82
<b>Tribal Cost Share</b>				<b>\$5,485.18</b>

Total project costs are:

Vehicle Expenses	\$144,751.00
Light-Duty Zero-Emission Supply Equipment Expenses	\$31,821.49
Administrative Expenses	\$37,613.00
<b>Project Total</b>	<b>\$214,185.49</b>

### **Estimate of Anticipated NOx Reductions (5.2.3)**

NOx and reduction of other pollutants were estimated by utilizing the Environmental Protection Agency's Diesel Emissions Quantifier. The estimated annual NOx reduction (in short tons) is 94.9%; the NOx reduction over the replacement vehicle's lifetime is also 94.9%. Details follow in the tables on the next page.

## Describe how the Beneficiary will make documentation publicly available (5.2.7.2)

The Pueblo of Laguna will establish a webpage dedicated to the funding received from the VW Settlement Trust, which will include a link for members of the public to request additional information and documents related to the funding request and expenditure of funds. The Pueblo of Laguna will endeavor to respond to such requests within ten (10) business days and, when documents are requested, will advise the individual within that timeframe of the procedure for reviewing such documents. The Pueblo of Laguna follows Pueblo of Laguna law for matters governing confidential business information and personally-identifiable information, and exemptions thereto.

### **Detailed Plan for Reporting on Eligible Mitigation Action Implementation (5.2.11)**

The first semi-annual report will be submitted by May 15<sup>th</sup>, 2022, no later than six months after the Pueblo of Laguna receives its first disbursement of Trust Assets. Thereafter, semi-annual reporting will be done no later than January 30<sup>th</sup> (for the preceding six-month period of July 1<sup>st</sup> to December 31<sup>st</sup>) and July 30<sup>th</sup> (for the preceding six-month period of January 1<sup>st</sup> to June 30<sup>th</sup>) of each year, we shall submit to the Trustee a semiannual report describing the progress implementing our project during the six-month period leading up to the reporting date (including a summary of all costs expended on the Eligible Mitigation Action through the reporting date). Reports will also be posted on our public-facing tribal webpage dedicated to the Volkswagen Settlement.

Abel Teller

I have put together a quote on the 108SD chassis. This price includes the cost of the Dump Body and the installation for the Snow Plow. If you can please take a look at the specs and let me know if I need to make any changes. I would sure appreciate it! Thank You! Have a good day!

Respectfully,,

Pat Torres
