

**Colorado VW Diesel Emission Mitigation Program
 Semiannual Report**

Lead Agency	Colorado Department of Health and Environment
Partner Agency	Colorado Energy Office
Eligible Mitigation Action	ZEV Supply Program
Beneficiary Project ID	ZEV (9Z18D)
Reporting Period	July 1, 2022 – December 31, 2022

Agency Budget – Colorado Energy Office						
Funding Request No.	Total Funds Obligated	Total Funds Expended to-date	Equipment Expenditure Obligated	Equipment Expenditure Billed to-date	Administrative Expenditure Obligated	Administrative Expenditure Billed to-date
1.	\$10,299,203	\$2,882,264.01	\$9,275,000	\$2,346,608.28	\$1,024,203	\$535,655.73
Notes: One D4 certificate was submitted for the total program costs of \$10,299,203 under funding request No. 1, a subsequent Attachment A form was submitted as funding request No. 2.						

Mitigation Action 9: Electric Vehicle Supply Equipment

This semiannual report documents the progress and implementation for installing Level 2 and DC Fast Charging (DCFC) stations throughout the state of Colorado. The first drawdown of funds includes projects and administrative costs for community and corridor charging stations. Funds for the corridor charging stations are awarded through the program Alt Fuels Colorado, and awards for community charging stations are awarded through the program Charge Ahead Colorado. As of May 10, 2022 all funding for the electric vehicle supply equipment will be awarded through the Charge Ahead Colorado program, administered by the Colorado Energy Office.

Charge Ahead Colorado – community-based Level II and DC fast-charging stations

Summary of Activities

- Funding rounds
 - CEO offered two application rounds during this reporting period – in May 2022 & October 2022. Funding allocations were made in July 2022. Beginning in October 2022, a new short, rolling application was implemented by CEO for requests under \$27,000 for multifamily housing and workplaces.
- RFA modifications
 - CEO staff worked to make updates to the program and application based on the implementation of Community Access Enterprise Funds and action items addressed in the EV Equity study. This includes new incentives and a reduced match for DIC and QI applicants, as well as a new funding tier for high-powered Level 2 charging stations (19kw-25kw). A new short, rolling application was also implemented for funding requests under \$27,000 (3 or fewer Level 2 charging stations) for workplaces and multifamily housing. Additionally, the Application Guide was updated to reflect these changes, as well as refine eligibility. All of the updated application materials are available at <https://energyoffice.colorado.gov/zero-emission-vehicles/grants-incentives/charge-ahead-colorado>. A new application portal was developed as part of the new grant management capabilities of Salesforce to manage and review applications. The application is largely the same with the exception of clarifying questions for certain entity types.
- Web updates
 - Because the RAQC has since exhausted their funding, CEO now administers the program fully and moved all content about the program to <https://energyoffice.colorado.gov/zero-emission-vehicles/grants-incentives/charge-ahead-colorado>. Regular updates are made to reflect the upcoming funding rounds and available funding.
- Outreach materials
 - CEO has not developed any formal outreach materials. Current materials are available on <https://energyoffice.colorado.gov/zero-emission-vehicles/grants-incentives/charge-ahead-colorado>.
 - CEO staff participated in various outreach webinars and presentations from August through December 2022 to educate past applicants and interested parties on updates to the Charge Ahead Colorado program and new application portal.

- A new vendor training was implemented in December 2022 to educate current and new vendors that wish to participate on the [EVSE Vendors List](#) on the updates to the program, as well as technology and reporting requirements.

Charge Ahead Colorado – community-based Level II and DC fast-charging stations

Awards Issued – Projects in Construction – VW Fund

Awards from CEO are forthcoming as allocations are finalized. CEO anticipates awarding projects using the VW Trust Settlement from the May 2022 Round. Once determined, projects will be reported in July 2023.

ALT Fuels Colorado – corridor-based DC fast-charging stations

- As of December 2022, a total of 27 sites are operational. ChargePoint has begun invoicing CEO. CEO will begin invoicing and drawing down the contract between CEO and CDPHE for this work.
- Sterling, Burlington, Lamar, and Dacono are under construction.

COLORADO
Department of Public
Health & Environment

- We anticipate a total of 31 sites will be completed by December 31, 2023.
- Three sites will be completed through 2023 at Aurora, Gunnison and Castle Rock.
- All 34 communities will be updated to Express Plus equipment by Q4 2023.

This information is true and correct and submission is made under penalty of perjury.
