1. The State of New Hampshire engages the firm or individual ("the Vendor") to perform the services and/or sale of goods, described in the attached State Proposal and the Vendor's proposal, bid or quotation, any of which are incorporated herein by reference.

2. **COMPLIANCE BY VENDOR WITH LAWS AND REGULATIONS.** In connection with the performance of this agreement, the Vendor shall comply with all statutes, laws, regulations, and orders of federal, state, county or municipal authorities which shall impose any obligation or duty upon the Vendor, including, but not limited to civil rights and equal opportunity laws. In addition, the Vendor shall comply with all applicable copyright laws.

3. **TERM.** The contract and all obligations of the parties thereunder, shall become effective on a specified date and shall be completed in their entirety prior to a specified date. Any work undertaken by the Vendor prior to the effective date shall be at his sole risk and, in the event that the contract shall not become effective, the State shall be under no obligation to reimburse the Vendor for any such work.

4. **CONTRACT PRICE.** The contract price, a payment schedule and a maximum limitation of price shall be as specified by the proposal or bid invitation and the Vendor's response. All payments shall be conditioned upon receipt, and approval by the State, of appropriate vouchers and upon satisfactory performance by the Vendor, as determined by the State. The payment by the State of the Contract Price shall constitute complete reimbursement to the Vendor for all expenses of any nature incurred by the Vendor in the performance by the contractor and complete payment for the Services. The State shall have no other liability to the Vendor.

5. **DELIVERY.** If the Vendor fails to furnish items and/or services in accordance with all requirements, including delivery, the state may repurchase similar items from any other source without competitive process, and the original Vendor may be liable to the state for any excess costs.

If a Vendor is unable to complete delivery by the date specified, he must contact the using branch and or agency. However, the branch and or agency is not required to accept a delay to the original delivery date. All deliveries are subject to inspection and receiving procedure rules as established by the State of New Hampshire. Deliveries are not considered accepted until compliance with these rules has been established. State personnel signatures on shipping documents shall signify only the receipt of shipment.

6. **INVOICING.** All invoices must be in triplicate showing Order Number, Unit and Extension Prices and discounts allowed. A separate invoice shall be submitted for each order. Unless otherwise noted on the proposal or purchase order, payment will not be due until thirty(30) days after all services have been completed, or all items have been delivered, inspected and accepted or the invoice has been received, whichever is later.

7. **PERSONNEL.**

7.1. The Vendor shall disclose in writing the names of all owners (5% or more), directors, officers, employees, agents or subcontractors who are also officials or employees of the State of New Hampshire. Any change in this information shall be reported in writing within fifteen (15) days of their occurrence.

7.2. The person signing this agreement on behalf of the State, or his or her delegate ("Contracting Officer") shall be the State's representative for purposes of this agreement. In the event of any dispute concerning the interpretation of this agreement, the Contracting Officer's decision shall be final.

8.1.2. failure to submit any report required hereunder; or

8.2.1. give the Vendor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty(30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this agreement, effective two (2) days after giving the Vendor notice of termination; and

8.2.2. give the Vendor a written notice specifying the Event of Default and suspending all payments to be made under this agreement and ordering that the portion of the Contract Price, which would otherwise accrue to the Vendor during the period from the date of such notice until such time as the State determines that the Vendor has cured the Event of Default, shall never be paid to the Vendor; and

8.2.3. set off against any other obligation the State may owe to the Vendor any damages the State suffers by reason of any Event of Default; and

8.2.4. treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

No express failure of any Event of Default shall be deemed a waiver of any provision hereof. No such failure or waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof regarding any further or other default on the part of the Vendor.

10. **VENDOR'S RELATION TO THE STATE.** In the performance of this agreement the Vendor is in all respects an independent contractor, and is neither an agent nor an employee of the State. 16. **CONSTRUCTION OF AGREEMENT AND TERMS.** This agreement shall be construed in accordance with the laws of the State of New Hampshire, and is binding upon and inures to the benefit of the parties and their respective successors and assigns.

17. **ADDITIONAL PROVISIONS.** The additional provisions (if any) have been set forth as Exhibit "A" hereto.

Attachment 1

Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): The projects fit into the Mitigation Plan by addressing the principal goal of New Hampshire's Mitigation Trust to alleviate excess nitrogen oxide emissions caused by the Volkswagen violations through implementation of cost-effective projects in all regions of the state. Utilizing Mitigation Trust funds for the replacement of publicly owned vehicles lowers operating and maintenance costs for these fleets and saves taxpayer money. The vehicles to be replaced through these projects will operate throughout the state, including in areas with historical air quality issues, and areas that receive a disproportionate quantity of air pollution from diesel fleets. The replacement of older diesel vehicles with lower emission vehicles maximizes air quality benefits by also reducing particulate emissions, greenhouse gas emissions, and the carcinogens associated with diesel exhaust. Use of state agency match for these projects serves to leverage investment of additional funds and expand the number and scope of projects to be served by the Mitigation Trust.

Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): The projects involve the replacement of six state heavy duty diesel vehicles and one state medium duty diesel vehicle with new lower emission vehicles. The NH Department of Safety project involves the replacement of two large (Class 8) diesel trucks and one medium (Class 6) diesel truck with newer more efficient trucks. The NH Department of Corrections project involves the replacement of two large (Class 8) diesel trucks with newer more efficient trucks. The NH Department of Environmental Services project also involves the replacement of two large (Class 8) diesel trucks with newer more efficient trucks. The replacement of these older and less efficient vehicles with lower emission new diesel vehicles will benefit air quality in the state through reductions in emissions such as NO_x, particulate matter, and greenhouse gases. The replacement of these publicly owned diesel vehicles will also provide a broad public benefit by lowering maintenance and fuel costs for this state fleet, and thus for taxpayers.

It is estimated that the state vehicle replacement projects will result in an annual reduction in NO_x of 0.21 short tons and an estimated lifetime reduction of 0.86 short tons. It is estimated that the projects will result in an annual reduction in PM_{2.5} of 0.01 short tons and estimated lifetime PM_{2.5} reduction of 0.02 short tons. It is estimated that the project will result in an annual reduction in CO of 0.06 short tons and estimated lifetime CO reduction of 0.16 short tons.

Describe any cost share requirement to be placed on each NO_x source proposed to be mitigated (5.2.8).

Cost Share Requirements for Projects:

NH Dept. of Safety – \$172,800 (20.0%)

NH Dept. of Corrections – \$23,389 (20.0%)

NH Dept. of Environmental Services WRBP - \$36,800 (20.0%)

Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9): Pursuant to Section 4.2.8 of the Environmental Mitigation Trust Agreement for State Beneficiaries, the New Hampshire Department of Environmental Services (DES), Lead Agency for the Environmental Mitigation Trust, has made information pertaining to the availability of Trust funding for eligible mitigation activities publicly available. This notification was accomplished through the presentation of the New Hampshire Beneficiary Environmental Mitigation Plan and State Trust Agreement documents on the Volkswagen page of the DES website. The New Hampshire Beneficiary Environmental Mitigation Plan and State Trust Agreement documents were made available on the website of the original Lead Agency, the New Hampshire Office of Strategic Initiatives, beginning on September 7, 2018. This information is now available on the Volkswagen page of the DES website.

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10): The vehicles to be replaced through these projects will operate throughout the state, including in areas with historical air quality issues, and areas that receive a disproportionate quantity of air pollution from diesel fleets.
