Summary of all Financial Costs (expended through Reporting Date):

Funding Source	Amount	Description
VW Settlement Funds	0	
Tribal Funds	0	
EPA DERA Funds	3000	TCC Wages to prepare 1 st bid

Beneficiary Reporting Obligations (per Section 5.3 of the Indian Tribe Trust)

Description of Status (include actual or projected termination date):

We put out a bid for the proposed Tier 3 diesel generators in May 2019 and received zero responses presumably because no entity could find the engines we were specifying. There is a lack of engines that fit the MY and Tier requirement due to EPA RICE rules. We have been pushing for regulatory relief and a final rule giving us that relief was published in July 2019 and is expected to be signed in Oct 2019 at which point engine availability will not be an issue.

Development (planning work accomplished for the project):

We have prepared an RFP for the project and released it but received no responses – we are preparing to re-release the RFP once the EPA signs off on the revised rule

Implementation (purchases, construction/installation of infrastructure, etc.):

None

Any modification to each approved Eligible Mitigation Action (including changes to equipment costs, tribal cost share, etc.):

None

I, Dave Messier, attest that the information provided in this report is true and correct and that the submittal of this report is made under penalty of perjury.
