1100 North Market Street  
Attn: Capital Markets & Agency Services  
Wilmington, DE 19890

Dear Mr. Crane,

The Missouri Department of Natural Resources has enclosed Missouri's eighteenth funding request through the Volkswagen Environmental Mitigation Trust (Project ID: Cat 5-EMA5 FY20-001). The department previously sent the enclosed D-4 submission electronically through Intralinks. The enclosure is to fulfill the requirement of a hard copy as required by paragraph 5.2 of the Trust Agreement.

Thank you for attention to this matter. If you have any questions regarding this submission, please contact Emily Wilbur, with the department's Air Pollution Control Program at P.O. Box 176, Jefferson City, MO 65102 or by phone at (573) 751-7840 or email at [emily.wilbur@dnr.mo.gov](mailto:emily.wilbur@dnr.mo.gov).

Sincerely,

AIR POLLUTION CONTROL PROGRAM

### SUMMARY

<b>Eligible Mitigation Action Type</b>	<input checked="" type="checkbox"/> Appendix D-2 item (specify): <u>Item 5: Ocean Going Vessels Shorepower</u> <input type="checkbox"/> Item 10 - DERA Option (5.2.12) (specify and attach DERA Proposal):
<b>Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1):</b>	<p>Missouri's BMP allocates \$2 million to marine and locomotive projects, which include eligible mitigation action (EMA) categories 3, 4, and 5. This funding request will fund marine engine shore power projects under EMA category 5 throughout the state. The project will reduce NO<sub>x</sub> emissions near ports, which are often located in urban areas that have struggled to maintain compliance with federal air quality standards. NO<sub>x</sub> reductions and the targeting of such areas are both listed as goals in Missouri's BMP.</p>
<b>Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):</b>	<p>Marine shore power can significantly reduce NO<sub>x</sub> emissions and have a co-benefit of reducing particulate matter. This project will reduce local diesel emissions exposure, while also decreasing regionally transported NO<sub>x</sub> pollution that contributes to the formation of ground-level ozone pollution. Encouraging the use of marine shore power can reduce operation and maintenance costs thus increasing the sustainability of a marine fleet or port and encouraging more investments in marine shore power in the future.</p>
<b>Estimate of Anticipated NO<sub>x</sub> Reductions (5.2.3):</b>	<p>Per Missouri's BMP, the department estimates that the \$2 million dedicated to marine and locomotive projects will achieve an estimated 400-700 tons of lifetime NO<sub>x</sub> emission reductions. This funding request represents approximately 20 percent of the total funding Missouri has dedicated to marine and locomotive projects. Based on this percentage, the projects funded through this funding request will achieve an estimated 80-140 tons of lifetime NO<sub>x</sub> emission reductions. The department will calculate the emission reductions from each individual project implemented based on the characteristics of the marine shore power installed and include the calculated emission reductions in the semi-annual reports the department will submit to the trustee.</p>
<b>Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1):</b>	<p>Missouri Department of Natural Resources</p>
<b>Describe how the Beneficiary will make documentation publicly available (5.2.7.2).</b>	<p>The Missouri Department of Natural Resources, as lead agency for the state of Missouri implementing the Environmental Mitigation Plan, has established a webpage on the VW Trust and mitigation actions, <a href="https://dnr.mo.gov/env/apcp/vw">https://dnr.mo.gov/env/apcp/vw</a>.</p>
<b>Describe any cost share requirement to be placed on each NO<sub>x</sub> source proposed to be mitigated (5.2.8).</b>	<p>The minimum cost share to be covered by the private project sponsors that receive funds as part of this funding request will be seventy-five percent of the actual cost of the mitigation action. The minimum cost share to be covered by the government project sponsors that receive funds as part of this funding request will be twenty-five percent of the actual cost of the mitigation action. Some project sponsors may cover more than these minimum amounts.</p>
<b>Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9).</b>	<p>On February 28, 2018, the Department notified the Department of Interior, including the National Park Service and U.S. Fish and Wildlife Service, and the Department of Agriculture, including the Forest Service of the availability of VW funds for locations within Missouri. The Department did not receive notice from any other federal agency indicating interest in these funds.</p>
<b>If applicable, describe how the mitigation action will mitigate the impacts of NO<sub>x</sub> emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10).</b>	<p>Marine shore power can help eliminate a portion of diesel emissions near ports and urban cores that bear a disproportionate amount of the air pollution burden. These projects will help reduce emissions in these areas with higher concentrations of diesel emissions.</p>

### Eligible Mitigation Action Management Plan Including Detailed Budget and Implementation and Expenditures Timeline

#### PROJECT MANAGEMENT PLAN

##### PROJECT SCHEDULE AND MILESTONES

Milestone	Date
DNR provides notice of availability of mitigation action funds	Aug/Sept 2019
Due date for project sponsors to submit proposals to lead agency	Oct/Nov, 2019
DNR provides approval of successful project sponsors' proposals	Dec 2019/Jan 2020
Project sponsors complete procurement and submit purchase orders	Project approval + 1 month
DNR submits attachment A to cover annual admin and project awards	Project approval +1 month
Trustee provides funds to DNR as requested in the attachment A	Project approval +1.5 months
Equipment delivered to project sponsors and Equipment/infrastructure work completed.	Project approval + 3 months
Project sponsors submit invoices, proof of payment, and other documents required for reimbursement	Project approval + 3.5 months
DNR reviews, requests corrections if necessary, certifies project completion, and provides reimbursement	Project approval + 4 months
DNR reports to Trustee on status of and expenditures with mitigation actions completed and underway	Jan. 31 and July 31 each year

This process will repeat again next state fiscal year (July 2020-June 2021).

## **ATTACHMENT C**

### **Detailed Plan for Reporting on Eligible Mitigation Action Implementation (5.2.11)**

Records of the applicant, selected projects, and financial reports will be made available on the department VW webpage in the form of a report to coincide with reporting requirements listed in the trust. Records may also be obtained through the state sunshine request portal.

**ATTACHMENT D**

**Detailed cost estimates from selected or potential vendors for each proposed expenditure exceeding \$25,000 (5.2.6)**

**Beneficiary Eligible Mitigation Action Certification – Missouri Funding Request #18**

Project IDs: Cat 5-EMA5 FY20-001

**Marine Shore Power Projects:**

Estimated Cost: \$100,000 - \$500,000

The department reviewed cost estimates for marine shore power projects on inland waterway ports. The cost for marine shore power installation depends on several variables including the number of vessel hook-ups, the size of the electric hook-ups, and the necessary infrastructure and transmission work needed to bring the grid-power to the edge of the port.
