

Volkswagen Settlement Indian Tribe Trust Program Semi-Annual Report

This report is hereby presented to Wilmington Trust, as Trustee for the Volkswagen Diesel Emissions Environmental Mitigation Trust for Indian Tribe Beneficiaries (“the Tribal Trust”). The Beneficiary named below submits this report in compliance with the semiannual reporting requirements described in Section 5.3 of the Modified Trust Agreement, for the six-month period specified below.

Beneficiary Name: Blue Lake Rancheria

Funding Cycle: Round 3

Six-Month Period: November 2020 to April 2021

Lead Agency Contact: David Narum

Summary of all Financial Costs (expended through Reporting Date): No expenditures have been made to date.

Beneficiary Reporting Obligations (per Section 5.3 of the Indian Tribe Trust)

Description of Status (include actual or projected termination date):

We are in the process of gathering several quotes from vehicle dealers. We are asking for quotes for Class 3-5 shuttle buses. These vehicles will be used in the same function (mobile education lab) as the Class 4 step van to be destroyed. Additionally, the ability to add an ADA uplift will make these all-electric vehicles even more accessible for young learners (owing to the ADA uplift) than an all-electric step van.

Development (planning work accomplished for the project):

Blue Lake Rancheria staff met to select the preferred vehicle type for the replacement of the mobile education lab step van.

Implementation (purchases, construction/installation of infrastructure, etc.):

No action yet.

Any modification to each approved Eligible Mitigation Action:

None.

I, David Narum, attest that the information provided in this report is true and correct and that the submittal of this report is made under penalty of perjury.

This report has been submitted to the Trustee on this day May 25, 2021 , via the Intralinks online file sharing platform.
