## Colorado River Indian Tribes VW Settlement

### ADDENDUM TO D-4 BENEFICIARY ELIGIBLE MITIGATION ACTION CERTIFICATION

**AUGUST 2021**

#### 5.2.2

During the fourth funding cycle of the Volkswagen (VW) Settlement Environmental Mitigation Trust for Indian Tribes, the Colorado River Indian Tribes will replace one government-owned vehicle:

- One (1) Government-Owned 2007 Blue Bird School Bus, *Eligible per Class 4-8 Buses*

The Tribe will also establish Light Duty Zero Emission Vehicle Supply Equipment via:

- One (1) Dual-Port Level 2 Electric Vehicle (EV) Charging Station at the Running Man II Fuel Station located in the City of Parker, AZ on the Colorado River Indian Tribes Reservation.

The eligible vehicle selected to be replaced are the following:

Year	Make	Model	Description	VIN
1997	Blue Bird	School Bus	Used by CRIT HEADSTART <i>Verified Class 7</i>	1BAAGCSA8VF071565

The eligible vehicle will be scrapped and replaced with a new low-emission diesel school bus. The Colorado River Indian Tribes understands the term "scrapped" means to render inoperable and available for recycle, and, at minimum, to specifically cut a 3" or larger hole in the engine block of the vehicle and, for vehicle to be replaced as part of this project, to disable the chassis by cutting the vehicle frame rails completely in half.

The Colorado River Indian Tribes will acquire the following:

*Low-emission replacement vehicles:*

Year	Make	Model	Description	Qty	Tribe Cost-Share	Mitigation Funds	Total Cost
2023	Thomas	C-2	School Bus <i>Class 7</i>	1		\$143,268.71	\$143,268.71
<b>Total</b>						\$143,268.71	<b>\$143,268.71</b>

The total cost of the replacement vehicle will be \$143,268.71. Costs have been obtained from qualified dealers and reflect delivery to Parker, Arizona, on the Colorado River Indian Tribes Reservation.

*Light Duty Zero Emission Vehicle Supply Equipment:*

<b>Electric Vehicle Charging Equipment Project Component</b>	<b>Description</b>	<b>Tribe Cost-Share</b>	<b>Mitigation Funds</b>	<b>Total Cost</b>
One (1) ChargePoint Zero Emissions Level 2 Electric Vehicle Charging Station	Shipping, Equipment & Services, Installation & Labor of One (1) CT4021-GW1, Dual Output Gateway Option, Pedestal Mount Station 208/240V @ 30A w/ 18' Cord	<i>*Contingent upon potential Change Orders</i>	\$31,601.00	\$31,601.00
<b>Total</b>			<b>\$31,601.00</b>	<b>\$31,601.00</b>

The total cost of the light duty zero emission electric vehicle charging station will be \$31,601.00. The charging station will be located at the Running Man II Fuel Station, adjacent to Highway 95 in Parker, Arizona. The property is well-lit, has sufficient electrical capacity for the charging stations, and maintains 24/7 service inside the facility.

The electric vehicle charging stations are a part of a corridor project to "Electrify the West" with zero emission charging stations available to the public to power their electric vehicles. Very few electric vehicle charging stations exist within the local area.

The community and air quality benefits from the mitigation project will include energy efficiency and a reduction in pollution, including reduced emissions of NOx, reduced fuel consumption, and reduced fuel costs.

**5.2.3**

The Eligible Mitigation Actions to be undertaken by the Colorado River Indian Tribes will result in a significant reduction in NOx emissions and other pollutants, fuel consumption, and fuel costs. Data regarding diesel emissions reduction has been calculated using the U.S. Environmental Protection Agency Diesel Emissions Quantifier (DEQ) and the Eligible Mitigation Actions taken for vehicle replacement are as follows:

<b>Vehicle</b>	<b>Annual Reduction in NOx Emissions</b>	<b>Lifetime Reduction in NOx Emissions</b>	<b>Annual Reduction in PM2.5</b>	<b>Lifetime Reduction in PM2.5</b>
School Bus	94.6%	94.6%	99.4%	99.4%

**5.2.7.1**

Governmental entities responsible for review and auditing expenditures of the Eligible Mitigation Action funds to ensure compliance with applicable law are the Attorney General's Office and the Finance Office of the Colorado River Indian Tribes.

**5.2.7.2**

The Colorado River Indian Tribes is committed to maintaining and making publicly available all documentation submitted in support of the Funding Request and all records supporting all expenditures of Eligible Mitigation Action funds, subject to applicable laws governing the publication of confidential business information and personally identifiable information.

As stated in D-3, the Colorado River Indian Tribes will establish a webpage dedicated to the funding received from the VW Settlement Environmental Mitigation Trust for Indian Tribes, which will include a link for members of the public to request additional information and documents related to the funding

request and expenditures of funds. The Colorado River Indian Tribes will endeavor to respond to such requests within ten (10) business days and, when documents are requested, will advise the individual within that timeframe of the procedure for reviewing such documents.

#### **5.2.8**

This project requires a cost-share. It has been determined that the Colorado River Indian Tribes is eligible for \$200,615 from the Environmental Mitigation Trust in the fourth funding cycle and the total cost of the project is \$202,123.75. The Tribe will have a cost share of \$1,508.75, per the budget on page 12.

#### **5.2.9**

No government agency has contacted the Colorado River Indian Tribes regarding the Tribe's intent as a Beneficiary.

## ChargePoint Make Ready, Installation and Equipment Proposal

Date	August 25, 2021
Client	<b>Colorado River Indian Tribes</b> Attention: Mercedes Kaiser 23625 Mohave Road Parker, AZ 85344 928-662-4336
Subject	Motive Make Ready, Installation and ChargePoint EV Chargers Equipment Quote One (1) CT4021 Dual Pedestal Charging Station.
Quote Number	210009

---

### Summary

Motive Infrastructure Solutions is pleased to provide the following quote to provide ChargePoint equipment for your project listed below for a ChargePoint installation project located at:

#### **Running Man Fuel Station**

28645 S. Airport Road  
Parker, AZ 85344

Our team has the depth of experience and the scale to meet aggressive schedules, innovative and cost-effective ideas as well as the technical capability to provide this solution for an EV charging solution located at your facility.

---

### Schedule

Work shall commence upon Client's approved credit or receipt of a down payment of 50% of the ChargePoint equipment only, as outlined below.

## **Scope of Work**

1. From existing 120/240V, 100 Amp panel "DA", run conduit ~84' thru ceiling East to West.
2. Core outside and run conduit 10 feet down wall into sidewalk to concrete sidewalk.
3. Remove concrete sidewalk and run conduit 10' to cement sidewalk first two parking spaces.
4. Pour and Form (1) cement pad.
5. Installation and Programming.

**Categories:** VW

Mercedes,

Good afternoon, hope all is well!

Please find attached, our proposal for the turnkey Make Ready, Installation and Equipment Quote for the Running Man Fuel Station.

We quoted running NEW conduit to the island parking spaces West of the building. The run to the Propane tanks would be way too expensive to run 300 feet of new conduit/wire. The existing 1" is too small.

Our proposal includes the following:

1. One (1) ChargePoint Dual Pedestal Charging Station – see attached.
2. Scope of Work:
  - a. From existing 120/240V, 100 Amp panel "DA", run conduit ~84' thru ceiling East to West.
  - b. Core outside and run conduit 10 feet across sidewalk to concrete sidewalk.
  - c. Trench and run conduit 71' to cement sidewalk first two parking spaces.
  - d. Pour and Form (1) cement pad.
  - e. Installation and Programming.
3. Need Load Study on the Panel.

Please let me know if you have any questions or need additional information and when you would like to discuss?

Thanks!
