SUMMARY

Eligible Mitigation Action	<input type="checkbox"/> Appendix D-2 item (specify): _____
Action Type	<input checked="" type="checkbox"/> Item 10 - DERA Option (5.2.12) (specify and attach DERA Proposal): State Clean Diesel Grant Program
Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): To increase funding for Alabama's DERA program by using Environmental Mitigation Trust Funds as voluntary match per page 11 of Alabama's Beneficiary Mitigation Plan.	
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): Funds will be provided to the Alabama Department of Environmental Management (ADEM). ADEM will be partnering with the Piggly Wiggly Alabama Distribution Center to replace 12 diesel-only Transportation Refrigeration Units (TRUs) and trailers with new hybrid electric TRUs and new higher-efficiency trailers. This upgrade allows for low to zero diesel emissions as the new units can utilize electrified parking spaces at the facility as opposed to continued idling of the diesel engines. This project reduces diesel emissions and also reduces noise, both of which are a benefit to the surrounding community. ADEM will also be partnering with the Winston and Randolph County school systems to replace a total of 14 school buses. The new school buses will meet EPA's current emissions standards, which will reduce diesel emissions and improve air quality for the children during pick up, drop off and while traveling.	
Estimate of Anticipated NOx Reductions (5.2.3): The approximate amount of NOx reductions for the three projects the DERA Program will be funding is a combined total of 3 tons annually over the life of the vehicles and equipment.	
Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1): Once funds are provided as match for the Alabama DERA Program, the ADEM will ensure that all funding will comply with applicable laws.	
Describe how the Beneficiary will make documentation publicly available (5.2.7.2): Notification of Environmental Mitigation Trust Funds to serve as voluntary match for the Alabama DERA program is publicly available on the Alabama VW Website.	

Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8). For all three projects, ADEM will be providing up to 25% of the total project cost, as well as applying a 15% administrative fee. For the Piggly Wiggly project, approximately \$265,000 of DERA funding will be used, and a combined total of approximately \$355,000 will be used for both school bus replacement projects.

Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9). Pursuant to subparagraph 4.2.8, within 30 days of the filed Notice of Beneficiary Designation listing ADECA as the Beneficiary of the State Trust, ADECA mailed a copy of the State Trust Agreement to required federal agencies.

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10). Not applicable
