Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): Illinois' revised BMP submitted in April 2022 allocates up to 32 percent of its funds to replace older diesel school buses with new all-electric school buses and charging infrastructure and up to 2 percent for administrative costs (Section IV(D)).	
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): This funding request involves the replacement of 23 Class 4-7 engine model year 2007-2009 school buses with 23 new all-electric school buses. The 23 new buses will operate in the Chicago nonattainment area (Priority Area 1 in Illinois' BMP) and serve Chicago Public School District 299. The grant award was established at 75% of eligible costs for the electric school buses and any necessary charging equipment. The total grant award for A.M Bus Co. is \$3,548,746.50 and for Latino Express of Chicago \$2,729,805. The projects include the installation of charging equipment. Replacing 23 older diesel buses with new electric school buses will result in reductions of NOx and other pollutants thereby providing air quality benefits to the area and the students served by the buses.	
Estimate of Anticipated NOx Reductions (5.2.3): It is anticipated that the projects will result in 1 ton of annual NOx reductions.	
Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1): Illinois EPA	
Describe how the Beneficiary will make documentation publicly available (5.2.7.2) The public may access documentation and records relative to the State of Illinois' administration of Trust Funds by submitting a request to the Illinois EPA pursuant to the Illinois Freedom of Information Act (5 ILCS	

140/1, et. seq.). The Illinois EPA has regulations ("Access to Public Records of the Illinois Environmental Protection Agency," 2 Ill. Adm. Code Part 1828) that provide the framework by which Illinois EPA public records may be requested, accessed, inspected, duplicated, and further lists the records what will not be disclosed to the public, including records that contain personally-identifiable information and confidential business information. Trade secret and confidential business information claims are reviewed by the Illinois EPA in accordance with procedures and rules provided in 35 Ill. Adm. Code Part 130 and 2 Ill. Adm. Code Part 1828.

The Illinois EPA will make certain documentation and records relative to its administrative of Trust Funds available on its Driving a Cleaner Illinois webpage. The Illinois EPA's Beneficiary Mitigation Plan ("BMP") was made available to the public for review and comment, and the final BMP is available through the Illinois EPA's Driving a Cleaner Illinois webpage. The Illinois EPA will make available funding opportunities and related information and documents through this webpage. Further, the Illinois EPA will maintain and make available for public review all documentation submitted in support of funding requests and all records supporting all expenditures of eligible mitigation action funds consistent with the aforementioned laws and regulations.

Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8):

Environmental Mitigation Trust Funds will provide 75% funding of eligible costs for the 23 new buses and for the necessary charging equipment. Applicants are required to provide a minimum 25% cost share, resulting in a total minimum cost share amount of \$2,092,850.50.

Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9):

Illinois EPA provided the requisite notice via email to the appropriate agencies on February 27, 2018.

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10):

The 23 new electric school buses will operate in the Chicago ozone nonattainment area and will serve schools in the Chicago Public School District 299 in Cook County that have a higher proportion of minority and low-income students. These projects will reduce emission impacts in this nonattainment area and to the communities and students served.
