Current Projects	EMA	Project Summary
Electric Vehicle Charging Infrastructure (Phase 1)	9	The Department requested \$13,500,000.00 for the installation of charging equipment at 27 sites along Interstates 95, 75, and 4. Department has 21 grant agreements completed. Six grant partners were unable to complete installation. To date, \$8,297,299.12 of the \$13,500,000.00 received from the Trustee has been encumbered or spent. Of the 21 projects, all the sites been completed and are available for use. 20 of the 21 completed projects have been paid out in full.
Electric School Bus	2	The Department requested \$57,000,000 for the purchase of electric school buses out of the total \$116,395,121.18 intended for use in eligible mitigation action #2. The Department has executed all seven of the grant packages to school districts for electric school buses. To date, the Department has dispersed \$24,642,645.40 and \$29,821,632.87 remains encumbered. 148 out of the 218 electric school buses have been ordered and 128 have been delivered.
Electric Vehicle Charging Infrastructure (Phase 2)	9	The Department requested \$11,441,811.68 for the installation of direct current (DC) fast chargers at sites along Interstates 4, 10, 75, and 95. The Department has 23 executed Phase 2 segments. Six of the projects have been completed and paid out.
Electric Transit Bus	2	The Department requested \$66,100,000 for the purchase of electric transit buses. This funding request exhausted the \$116,395,121.18 intended for use in eligible mitigation action #2 and is using \$6,704,878.82 of additional funds earned from Trustee investments. This project will also use \$2,000,000 in additional funds made available from unspent money from the Department's electric school bus grant program and interest earned from Florida's trust account. The Department has 11 executed grant agreements with transit agencies, encumbering \$66,300,000.00. To date, the Department has dispersed \$6,300,000 to purchase 21 electric transit buses.
Frieght Switcher Repowering	10	The Department requested \$1,250,000 for the purchase and installation of two new switcher locomotive engines for a DERA Option project. This project is being funded out of the \$24,941,811.68 intended for use in eligible mitigation action #10 and is using \$750,000 of EPA DERA funds as part of this project. The Department has executed two grant agreements with the grantee encumbering VW and DERA funds.
