### SUMMARY

<b>Eligible Mitigation Action</b> <input checked="" type="checkbox"/> Appendix D-2 item (specify): Eligible Mitigation Action 9. Light Duty Zero Emission Vehicle Supply Equipment
<b>Action Type</b> <input type="checkbox"/> Item 10 – DERA Option (5.2.12) (specify and attach DERA Proposal)
<b>Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1):</b> The Beneficiary Mitigation Plan's overarching goal is to protect New Mexico's environment and the health of our citizens. The Trust allows the State the opportunity to offset (mitigate) the impact of excess nitrogen oxide (NO <sub>x</sub> ) emissions associated with the affected vehicles registered within New Mexico. The reduction of NO <sub>x</sub> from mobile sources achieves the intended use of Trust funds by preventing the deterioration of air quality, ensuring the health and safety of the inhabitants of the State, and promoting visibility improvement within New Mexico. Implementation of diesel NO <sub>x</sub> reduction projects using Trust funds will have immediate and long-lasting benefits. The proposed project will reduce emissions of NO <sub>x</sub> , focusing on the most cost-effective vehicles that maximize emission reductions.
<b>Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):</b> A publicly accessible electric vehicle charging station consisting of two (2) 150kW DC fast charging stations located at the Allsup's Convenience Store, 327 Sumner Ave. Ft. Sumner, NM. In addition to the convenience store and gas station, other amenities nearby include restaurants, grocery store, dollar store, church and Billy the Kid Museum. Site has direct access to the intersection of HWY 84 and HWY 60 and the Ft. Sumner metropolitan area.
<b>Estimate of Anticipated NO<sub>x</sub> Reductions (5.2.3):</b> N/A
<b>Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1):</b> The New Mexico Environment Department Administrative Services Division is the governmental entity responsible for reviewing and auditing expenditures of EMA funds to ensure compliance.

**Describe how the Beneficiary will make documentation publicly available (5.2.7.2):**

The New Mexico Environment Department has created a public website, <https://www.env.nm.gov/vw-settlement/> for information relating to the Trust, the VW Partial Consent Trust Decrees, New Mexico's Beneficiary Mitigation Plan, and project implementation information. To provide transparency and accountability, the NMED will post information on its website.

**Describe any cost share requirement to be placed on each NO<sub>x</sub> source proposed to be mitigated (5.2.8):**

The total project cost is Two Hundred Ninety-Seven Thousand, Twenty-Seven dollars, and Thirty-Four cents (\$297,027.34). Trust funding will provide the requested Seventy-Four Thousand, Two Hundred Fifty-Six dollars and Eighty-Four cents (\$74,256.84), approximately 25% of the final total project cost for the purchase and installation of the charging equipment. The remaining Two Hundred Twenty-Two Thousand, Seven Hundred Seventy dollars and Fifty cents (\$222,770.50) constitute Francis Energy's cost share.

**Describe how the Beneficiary complied with Subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9):**

On February 27, 2018, NMED sent notice to the U.S. Department of the Interior and the U.S. Department of Agriculture using the contact information provided in Subparagraph 4.2.8.

**If applicable, describe how the mitigation action will mitigate the impacts of NO<sub>x</sub> emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10):**

Trust funds have afforded the State the opportunity to advance environmental justice goals. New Mexico's Draft Mitigation Plan expresses a commitment to prioritizing projects that benefit those communities most impacted by poor air quality. Minorities and those living below the poverty level historically have borne a disproportionate share of air pollution, including air pollution emissions associated with on-road vehicles. The service area for this project is within the village of San Jon, located in Quay County. The minority population in this area is 49%, and the low-income population is 53%. The completion of this project is an essential step towards reducing regional air pollution levels, improving human health and addressing environmental inequality.

**DETAILED PLAN FOR REPORTING ON ELIGIBLE MITIGATION**  
**ACTION IMPLEMENTATION**

The New Mexico Environment Department (NMED), as the lead agency for the State of New Mexico for implementing the Volkswagen Environmental Mitigation Settlement Plan, has established a webpage for the Settlement and mitigations actions, [www.env.nm.gov/vw-settlement/](http://www.env.nm.gov/vw-settlement/). NMED will post documents and links as required under Paragraph 7 of Appendix D-3 Certification for Beneficiary Status form. NMED is subject to the *Open Meetings Act*, which provides the statutory guidelines for conducting public meetings and the *Inspection of Public Records Act*, which is a New Mexico state law that provides the public and media access to public information.

For the initial round of funding, NMED solicited, through a competitive process, public and private entities for funding opportunities. Projects were selected through a scored application using an identified scoring criterion. The records of selected projects will be posted and made available on the NMED VW Settlement webpage. The public website was created specifically to provide information related to the Trust, the VW Partial Consent Decrees, and accountability. The NMED will post timely updates on the following:

- General information on the Trust and Consent Decrees
- The State's final Beneficiary Plan
- All public records supporting funding requests the NMED submits to the Trust
- All public records supporting all expenditures of the Trust Fund
- NMED contact information

After the initial round of funding, NMED will periodically evaluate the implementation of the State's Beneficiary Mitigation Plan (BMP) and associated Eligible Mitigation Actions and will determine whether any revisions to the BMP and funding levels need to be reevaluated. If revisions to the BMP are warranted, NMED will seek public input on BMP revisions with a minimum of a 30-day public comment period.

In addition, the State will also comply with the reporting obligations listed in the Environmental Mitigation Trust Agreement for State Beneficiaries in Subparagraph 5.3.
