SUMMARY

Eligible Mitigation Action <input checked="" type="checkbox"/> Appendix D-2 item (specify): <u>EMA #1 (large trucks)</u>
Action Type <input type="checkbox"/> Item 10 - DERA Option (5.2.12) (specify and attach DERA Proposal): _____
Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): Pages 2-3 of the Oklahoma BMP discuss the use of VW Trust funds for the On-Road Program.
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): This project will replace 39 large duty class 8 trucks currently in service in the Tulsa Metropolitan Statistical Area, Oklahoma City Metropolitan Statistical Area and in high NOx emissions counties. These 39 vehicles are comprised of 6 Refuse Trucks (4 CNG and 2 Diesel), 8 Concrete Mixers (Diesel), 8 Dump Trucks (4 CNG and 4 Diesel), 14 Freight Trucks (Diesel) and 3 Hauling Trucks (Diesel). Replacing these diesel vehicles with newer diesel technology and CNG fuels will reduce localized air pollution in the two largest cities in the state as well as along major highway corridors. Air quality benefits from this project are 114,779 lbs of NOx, 5,574 lbs of PM2.5, and 1,183 short tons of greenhouse gases.
Estimate of Anticipated NOx Reductions (5.2.3): Expected lifetime NOx reductions from this project are 114,779 lbs, according to the Argonne Heavy Duty Vehicle Emissions Calculator.
Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1): Oklahoma Department of Environmental Quality
Describe how the Beneficiary will make documentation publicly available (5.2.7.2). Page 14 of the Oklahoma BMP describes how DEQ will make information pertinent to the VW Trust publicly available. In addition, Oklahoma DEQ maintains a website which includes webpages containing information in regard to Oklahoma VW programs. The Oklahoma VW website is at: https://www.deq.ok.gov/air-quality-division/volkswagen-settlement/ . Oklahoma DEQ also operates a mailing list for the VW programs.
Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8). Per page 4 of the Grant Solicitation issued by DEQ, each Government project partner was required to pay at least 25% of the project cost for a Diesel or CNG vehicle and each Non-Government partner was required to pay at least 75% of the project cost for a Diesel or CNG vehicle. These project partners are a mix of Government and Non-Government entities. All minimum matches were met and some partners provided more than minimum.
Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9). Oklahoma DEQ sent notice by USPS and email to the representatives from the U.S. Department of the Interior and the U.S. Department of Agriculture listed in subparagraph 4.2.8 of the State Trust Agreement on February 15, 2018.

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10).

Impact on communities that have historically borne a disproportionate share of the adverse impacts of NOx emissions was one of the metrics by which all project applications for this program were ranked and awarded. Projects which were located along major travel corridors and in large metropolitan areas where the NOx emissions would be the most concentrated were given priority. The project locations covered by this D-4 are in potential ozone nonattainment counties, in counties with a high mobile-source NOx emission ranking for Oklahoma, and in counties containing greater than 1% of the State's registered Volkswagen Settlement Subject Vehicles. These vehicles operate in the urban environment and often in close proximity to neighborhoods. The nature of business for these vehicles puts them in direct contact with communities.

ATTACHMENT C

DETAILED PLAN FOR REPORTING ON ELIGIBLE MITIGATION ACTION IMPLEMENTATION

Per Subparagraph 5.2.11 of the Environmental Trust Agreement for State Beneficiaries (“Trust Agreement”), Beneficiaries must set forth a “detailed plan for reporting on Eligible Mitigation Action implementation” to be included in an Appendix D-4 funding request. The Oklahoma Department of Environmental Quality (DEQ) plans to report per 5.3 of the Trust Agreement and Sections H and I of DEQ’s DERA Cooperative Agreement with EPA.

DEQ is committed to meeting reporting requirements consistent with Subparagraph 5.3 of the Trust Agreement, as set forth below:

For each Eligible Mitigation Action, no later than six months after receiving its first disbursement of Trust Assets, and thereafter no later than January 30 (for the preceding six-month period of July 1 to December 31) and July 30 (for the preceding six-month period of January 1 to June 30) of each year, each Beneficiary shall submit to the Trustee a semiannual report describing the progress implementing each Eligible Mitigation Action during the six-month period leading up to the reporting date (including a summary of all costs expended on the Eligible Mitigation Action through the reporting date). Such reports shall include a complete description of the status (including actual or projected termination date), development, implementation, and any modification of each approved Eligible Mitigation Action. Beneficiaries may group multiple Eligible Mitigation Actions and multiple sub-beneficiaries into a single report. These reports shall be signed by an official with the authority to submit the report for the Beneficiary and must contain an attestation that the information is true and correct and that the submission is made under penalty of perjury. To the extent a Beneficiary avails itself of the DERA Option described in Appendix D-2, that Beneficiary may submit its DERA Quarterly Programmatic Reports in satisfaction of its obligations under 15 of 43 this Paragraph as to those Eligible Mitigation Actions funded through the DERA Option. The Trustee shall post each semiannual report on the State Trust’s public-facing website upon receipt.

Detailed cost estimates from potential vendors for each proposed expenditure exceeding \$25,000.

The following vendor quotes are based on applicants' market research at the time of application.

Vehicle	Fuel	Cost
Refuse Truck	CNG	\$301,342.87*
Refuse Truck	Diesel	\$273,500.00
Freight Truck	Diesel	\$107,000.00
Dump Truck	CNG	\$280,927.90
Dump Truck	Diesel	\$147,659.44
Hauling Truck	Diesel	\$84,224.18
Concrete Mixer	Diesel	\$221,800.48

*This total represents the sum of two included quotes: the truck portion from Premier and the hauler portion from Labrie.
