**CERTIFICATIONS**

**By submitting this application, the Lead Agency makes the following certifications:**

1. This application is submitted on behalf of Beneficiary State of Michigan, and the person executing this certification has authority to make this certification on behalf of the Lead Agency and Beneficiary, pursuant to the Certification for Beneficiary Status filed with the Court.
2. Beneficiary requests and directs that the Trustee make the payments described in this application and Attachment A to this Form.
3. This application contains all information and certifications required by Paragraph 5.2 of the Trust Agreement, and the Trustee may rely on this application, Attachment A, and related certifications in making disbursements of trust funds for the aforementioned Project ID.
4. Any vendors were or will be selected in accordance with a jurisdiction's public contracting law as applicable. (5.2.5)
5. Beneficiary will maintain and make publicly available all documentation submitted in

support of this funding request and all records supporting all expenditures of eligible mitigation action funds subject to applicable laws governing the publication of confidential business information and personally identifiable information. (5.2.7.2)

## **Appendix D-4 Details**

**Beneficiary's Project ID:** 20-5V21-201

**In support of Funding Request Number** 1

**Beneficiary:** State of Michigan

**Lead Agency:** Michigan Department of Environment, Great Lakes, and Energy (EGLE)

### **SUMMARY**

#### **Explanation of How Funding Request Fits into Beneficiary Mitigation Plan (5.2.1):**

The Michigan Volkswagen (VW) Settlement Beneficiary Mitigation Plan (BMP) allocates a total of \$13,961,402.93 to the replacement of eligible diesel school buses with new eligible school buses. The nine projects associated with this funding request have permanently removed 21, 2009 or older, diesel school buses from service and replaced them with 21 new diesel or propane school buses. These projects fit into the BMP as Eligible Mitigation Action #2, Class 4-8 School Buses, and they help to address specific goals which are:

- To reduce nitrogen oxide (NOx) emissions and maximize air quality benefits statewide with an emphasis on priority areas (areas designated as non-attainment and maintenance areas for the National Ambient Air Quality Standards).
- To reduce diesel emissions from school buses statewide.
- To increase adoption of zero emission and alternate fuel vehicles and equipment.

#### **Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):**

The nine projects permanently removed 21 diesel school buses, with engine model year of 2009 or older, and replaced them with 21 new, diesel or propane school buses.

Based on the Argonne National Laboratory Alternative Fuel Life-Cycle Environmental and Economic Transportation (AFLEET) Tool, these projects will result in the estimated emission reductions listed in Table 1 below.

<b>Pollutant</b>	<b>Emission Reductions</b>
<b>NOx</b>	<b>2,988.90 lbs.</b>
<b>Particulate Matter (PM2.5)</b>	<b>107.42 lbs.</b>
<b>Greenhouse Gases</b>	<b>154.07 short tons</b>

Table 1. Total New Vehicle Lifetime Benefits

The emission reductions will benefit students, school employees, and the communities in which the buses operate. Counties impacted by these projects include Allegan,

Barry, Eaton, Emmet, Ionia, Kent, Livingston, Marquette, Monroe, Shiawassee, and Wayne.

**Estimate of Anticipated NOx Reductions (5.2.3):**

It is estimated that this project will reduce 2,988.90 pounds of NOx emissions over the life of the vehicles. The estimate was calculated using the AFLEET Tool.

**Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1):**

The Michigan Department of Environment, Great Lakes, and Energy (EGLE).

**Describe How the Beneficiary Will Make Documentation Publicly Available (5.2.7.2).**

EGLE has created a public website for information related to the Volkswagen Settlement, which can be accessed at [Michigan.gov/EGLEFTP](https://Michigan.gov/EGLEFTP). The website provides information on current and upcoming requests for proposals and links to the following resources:

- Frequently Asked Questions
- Fuel Transformation Program Projects Selected for Funding 2019-2020
- Michigan Volkswagen Settlement Beneficiary Mitigation Plan
- Volkswagen Clean Air Act Civil Settlement
- Volkswagen Diesel Emissions Environmental Mitigation Trust Information by State

Michigan's funding requests and semiannual reports required by paragraph 5.3 of the Trust, can be found on Wilmington Trust's website at [wvenvironmentalmitigationtrust.com](https://wvenvironmentalmitigationtrust.com) that provides Volkswagen Diesel Emissions Environmental Mitigation Trust information by state.

Records and documentation submitted by the State of Michigan (SOM) supporting each funding request and all expenditures of Trust funds may be accessed pursuant to Michigan's Freedom of Information Act (FOIA), Michigan Compiled Laws (MCL) 15.231 *et seq.*. The procedures for accessing such records and documentation are designed to support access and limit the burden on the general public. Upon submitting a request for public records to the FOIA Coordinator for EGLE, a person has a right to inspect, copy, or receive copies of the requested public records. SOM organizes the records and documentation, supporting each funding request and expenditures of Trust funds, thereby facilitating access to records and reducing any fees for a record search and/or copy. FOIA also authorizes SOM to waive or reduce any such fees. In addition, information about SOM's actions pursuant to the Trust is available on the EGLE website.

The certification in paragraph 7 of Michigan's Certification for Beneficiary Status under the Trust is subject to the FOIA provisions governing the publication of confidential business information and personally identifiable information. Those provisions authorize a public body to exempt from disclosure, information of a personal nature, if public disclosure of the information would constitute a clearly unwarranted invasion of an individual's privacy. Those provisions also authorize a public body to exempt from disclosure, trade secrets or commercial or financial information voluntarily provided to an agency for use in developing governmental policy, if certain conditions are met, MCL 15.243.

EGLE's website with information related to the Volkswagen Settlement will be updated until the Trust's termination date or the date required by EGLE's records retention policy, whichever is the later.

**Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8).**

The nine projects associated with this funding request are providing 75 or 60 percent match of the total project costs depending on whether the new bus is diesel or propane. A 75 percent match is required for diesel school buses and a 60 percent match is required for propane school buses. EGLE VW settlement funds are providing the remaining 25 or 40 percent of total project costs.

**Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9).**

On February 23, 2018, EGLE emailed a letter and a copy of the Trust to the following agencies: National Park Service, United States Fish and Wildlife Service, and the United States Department of Agriculture. The letter notified these agencies of Eligible Mitigation Action funds made available via the Trust, and that as Lead Agency, EGLE will solicit applications involving these Eligible Mitigation Actions on lands, in Michigan, within their agency's custody, control or management. The letter provided the state website where funding opportunities are posted and provided a representative's name, address, phone number and email address to answer any questions. Additionally, all funding opportunities are announced via a press release and the EGLE Grant and Loan Opportunities listserv.

**If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10).**

The nine projects associated with this funding request have permanently removed 21 diesel school buses with engine model year 2009 or older and replaced them with 21 new diesel or propane school buses. Several of the new buses will operate in a nonattainment area for the 2015 National Ambient Air Quality Standard for Ozone. The areas of nonattainment in which the buses operate include Allegan, Livingston, Monroe, and Wayne counties which have historically borne a disproportionate share of adverse impacts from NOx emissions.

### **Detailed Plan for Reporting on Eligible Mitigation Action Implementation (5.2.11):**

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division, requires reporting from the Grantee every six months until the project is complete. Reports have a complete description of the status (including actual or projected termination date), development, implementation, estimated emissions mitigated, and any modification of the project, and a summary of all costs expended on the project as specified in the grant agreement. Information from Grantee's projects along with additional information from EGLE will be used to complete EGLE's report to the Trustee. EGLE will submit a report no later than January 30 (for the preceding six-month period of July 1 to December 31) and July 30 (for the preceding six-month period of January 1 to June 30) to meet the semiannual reporting requirements under 5.3 of the Trust Agreement.
