<sup>2</sup> Project costs expended are payments made by Grantees to vendors for the above project costs incurred

<sup>3</sup> Amounts of eligible reimbursement requests submitted by IEPA to Trustee for this project

**SECTION 4: PROJECT DEVELOPMENT and IMPLEMENTATION STATUS****1. Description of the progress in implementing the Eligible Mitigation Action, including the development, implementation, current status, and any modifications during this reporting period.**

Universal EV has completed six of the planned 41 DCFC sites to be installed in all three priority areas in Illinois. Two sites are located in Caseyville and two others are in North Aurora, with one site each in Lombard and McHenry. The six sites are now online for public charging. Construction has been completed at five other sites and should be commissioned and online soon for charging. As for the remaining sites, Universal reports they are in varying stages of implementation, with some involving needed utility upgrades. It is anticipated that all sites will be completed in 2026.

**2. If project is completed, actual project completion date:**

6 of the 41 sites were completed in 2025 and  
Attachment A requests were submitted to the  
Trustee

**SECTION 5: AUTHORITY TO SUBMIT REPORT**

**SECTION 4: PROJECT DEVELOPMENT and IMPLEMENTATION STATUS****1. Description of the progress in implementing the Eligible Mitigation Action, including the development, implementation, current status, and any modifications during this reporting period.**

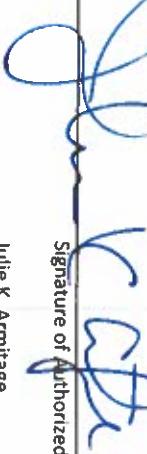

Pilot Travel Centers has completed five of the six charging sites, with all five sites now in service. The last site is facing delays due to logistical issues and may need to be canceled. Pilot will inform Illinois EPA on the final decision for this site. Love's Travel Stops has canceled five of its eight planned DCFC sites due to insufficient federal funding that it was planning on using as a match towards its project. Love's informed Illinois EPA that they were awarded some federal funding and are completing the site design and permitting and has ordered the equipment for these three sites as a result. Illinois EPA and Love's amended the grant agreement to reduce the number of sites from eight to three and also reduce the amount of the grant award from \$1,280,000 to \$480,000. It is anticipated that Love's will complete this project by June 2026.

#### SECTION 4: PROJECT DEVELOPMENT and IMPLEMENTATION STATUS

##### 1. Description of the progress in implementing the Eligible Mitigation Action, including the development, implementation, current status, and any modifications during this reporting period.

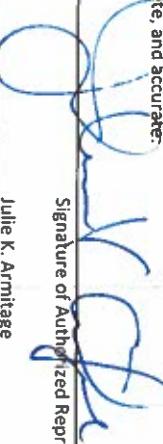

BP Products had to cancel the Carpentersville site as the planned location could not meet the municipal setback and equipment screening requirements. A viable alternative site could not be identified. As for the remaining Champaign and Roscoe sites, permitting and site easements were approved for Champaign, and BP is still waiting on the site easement approval for Roscoe. Construction is planned this year for both sites. In July 2024, GPM Midwest completed the South Beloit charging site at the FasMart/McDonald's in Winnebago County. The Springfield Fas Mart site was completed and went live in July 2025. The Rockford site was completed and went live in December 2025. Illinois EPA will be providing the Attachment A for GPM Midwest after it reviews and approves the final documentation for the three DCFC sites.

##### 2. If project is completed, actual project completion date:

Francis Energy: May 2024
GPM Midwest: December 2025

For all First Student projects, the grant agreements will be extended from January 31, 2026 to the end of 2026 due to unexpected delays and logistical issues. Chicago PSD 299: Charging site will be installed in 2026. Purchase order for the new electric bus has been placed. Indian Prairie SD 204: Charging site will be installed in 2026. Purchase order for the new electric bus has been placed. Edwardsville CUD 7 and Collinsville CUSD 10: due to logistical issues, the new electric bus that was assigned to Collinsville has been reassigned to Edwardsville (the above grant and match amounts are now reflected in the Edwardsville CUD 7 line with Collinsville CUSD 10 being removed). First Student uses a common facility to serve both of these districts; the purchase orders for the two new electric school buses for Edwardsville have been placed. Charging stations will be installed in 2026. Burbank SD 111: The charging site will be installed in 2026. Purchase order has been placed.

## SECTION 4: PROJECT DEVELOPMENT and IMPLEMENTATION STATUS

**1. Description of the progress in implementing the Eligible Mitigation Action, including the development, implementation, current status, and any modifications during this reporting period:**

A.M. School Bus Co. has selected Midwest Transit Equipment to purchase its electric school buses. This project had a minor delay due to the Lion bankruptcy but A.M. School Bus informed Illinois EPA that it is still on target to acquire the buses and install the charging equipment before the April 2026 deadline. The project with Latino Express of Chicago will likely be canceled as several attempts to receive updates from their representative have gone unanswered. Latino Express had also engaged with Lion earlier in the process to acquire its new electric school buses but may have decided not to proceed.
