### SUMMARY

<b>Eligible Mitigation Action Action Type</b>	<input checked="" type="checkbox"/> Appendix D-2 item (specify): <u>1. Class 8 Local Freight Truck Replacement and Administrative Expenditures</u> <input type="checkbox"/> Item 10 – DERA Option (5.2.12) (specify and attach DERA Proposal)
<b>Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1):</b>	
Illinois' revised BMP submitted in April 2022 allocates up to 19 percent of its funds to replace older diesel local freight trucks with new all-electric local freight trucks and charging infrastructure and up to 2 percent for administrative costs (Section IV(D)).	
<b>Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):</b>	
<p>This funding request involves the replacement of one Class 8 engine model year 2000 local freight/delivery truck with one new Class 8 all-electric freight/delivery truck. The new truck will operate in McLean County (Priority Area 3 in Illinois' BMP) and serve the cities of Bloomington and Normal.</p> <p>The grant award was established at 75% of eligible costs for the electric freight/delivery truck. The grant award for B-N WRD for one truck is \$261,780. Replacing an older diesel truck with a new electric truck will result in reductions of NOx and other pollutants thereby providing air quality benefits in the Bloomington-Normal area.</p>	
<b>Estimate of Anticipated NOx Reductions (5.2.3):</b>	
It is anticipated that the project will result in 1.53 tons of annual NOx reductions as the older truck to be scrapped traveled nearly 140,000 miles and consumed over 28,000 gallons of diesel fuel annually.	
<b>Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1):</b>	
Illinois EPA	

**Describe how the Beneficiary will make documentation publicly available (5.2.7.2)** The public may access documentation and records relative to the State of Illinois' administration of Trust Funds by submitting a request to the Illinois EPA pursuant to the Illinois Freedom of Information Act (5 ILCS 140/1, et. seq.). The Illinois EPA has regulations ("Access to Public Records of the Illinois Environmental Protection Agency," 2 Ill. Adm. Code Part 1828) that provide the framework by which Illinois EPA public records may be requested, accessed, inspected, duplicated, and further lists the records what will not be disclosed to the public, including records that contain personally-identifiable information and confidential business information. Trade secret and confidential business information claims are reviewed by the Illinois EPA in accordance with procedures and rules provided in 35 Ill. Adm. Code Part 130 and 2 Ill. Adm. Code Part 1828.

The Illinois EPA will make certain documentation and records relative to its administrative of Trust Funds available on its Driving a Cleaner Illinois webpage. The Illinois EPA's Beneficiary Mitigation Plan ("BMP") was made available to the public for review and comment, and the final BMP is available through the Illinois EPA's Driving a Cleaner Illinois webpage. The Illinois EPA will make available funding opportunities and related information and documents through this webpage. Further, the Illinois EPA will maintain and make available for public review all documentation submitted in support of funding requests and all records supporting all expenditures of eligible mitigation action funds consistent with the aforementioned laws and regulations.

**Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8):**

Environmental Mitigation Trust Funds will provide 75% funding of eligible costs for the new electric truck. Applicants are required to provide a minimum 25% cost share, resulting in a total minimum cost share amount of \$87,260 for the project.

**Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9):**

Illinois EPA provided the requisite notice via email to the appropriate agencies on February 27, 2018.

**If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10):**

The new electric truck will operate in McLean County and will serve the cities of Bloomington and Normal in central Illinois. The new truck will be used to carry biosolids between two wastewater treatment plants. The truck will serve and operate in areas that have a large, disproportionate amount of diesel truck traffic and related emissions. This project will retire a high-mileage model year 2000 Class 8 diesel truck and reduce emission impacts in the cities of Bloomington and Normal in McLean County.
