

The State of New Hampshire
Department of Environmental Services

May 13, 2026

Mr. Michael Bochanski Jr.
Volkswagen Environmental Mitigation Trust
c/o Wilmington Trust, N.A. as Trustee
1100 North Market Street
Attn: Capital Markets & Agency Services
Wilmington, DE 1989

Dear Mr. Bochanski,

The New Hampshire Department of Environmental Services has enclosed a revised version of the State of New Hampshire's funding request NHDES-25-01, the sixteenth funding request for the State of New Hampshire, as required by paragraph 5.2 of the Trust Agreement. This version revises the requested amount to accommodate additional selected projects for this Eligible Mitigation Action.

Thank you for your attention to this matter. If you have any questions regarding this submission, please contact me – Craig Wright, Director, Air Resources Division at craig.a.wright@des.nh.gov or at (603) 271-1088.

Sincerely,

Craig Wright
Director, Air Resources Division
New Hampshire Department of Environmental Services
P.O. Box 95
Concord, NH 03302-0095

APPENDIX D-4
Beneficiary Eligible Mitigation Action Certification

BENEFICIARY ELIGIBLE MITIGATION ACTION CERTIFICATION

Beneficiary State of New Hampshire

Lead Agency Authorized to Act on Behalf of the Beneficiary NH Department of Environmental Services

(Any authorized person with delegation of such authority to direct the Trustee delivered to the Trustee pursuant to a Delegation of Authority and Certificate of Incumbency)

Action Title:	NH VW EMT Public Entity Vehicle Replacements
Beneficiary's Project ID:	NHDES-25-01
Funding Request No.	16
Request Type: (select one or more)	☐ Reimbursement ☐ Advance ☒ Other (specify): <u>Estimated amount required for eligible projects</u>
Payment to be made to: (select one or more)	☐ Beneficiary ☒ Other (specify): <u>NHDES, public entity grantees</u>
Funding Request & Direction (Attachment A)	☒ Attached to this Certification ☐ To be Provided Separately

SUMMARY

Eligible Mitigation Action	☒ Appendix D-2 item (specify): <u>Item 6 – Class 4-7 Local Freight Trucks (Medium Trucks)</u>
Action Type	☐ Item 10 - DERA Option (5.2.12) (specify and attach DERA Proposal):
Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1): See Attachment 1	
Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2): See Attachment 1	
Estimate of Anticipated NOx Reductions(5.2.3): See Attachment 1	
Identification of Governmental Entity Responsible for Reviewing and Auditing Expenditures of Eligible Mitigation Action Funds to Ensure Compliance with Applicable Law (5.2.7.1): New Hampshire Department of Environmental Services	
Describe how the Beneficiary will make documentation publicly available (5.2.7.2). https://www.des.nh.gov/business-and-community/loans-and-grants/volkswagen-mitigation-trust	
Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8). See Attachment 1	
Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9). See Attachment 1	
If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10). See Attachment 1	

ATTACHMENTS

(CHECK BOX IF ATTACHED)

- ☐ **Attachment A** Funding Request and Direction.
- ☒ **Attachment B** Eligible Mitigation Action Management Plan Including Detailed Budget and Implementation and Expenditures Timeline (5.2.4).
- ☒ **Attachment C** Detailed Plan for Reporting on Eligible Mitigation Action Implementation (5.2.11).
- ☒ **Attachment D** Detailed cost estimates from selected or potential vendors for each proposed expenditure exceeding \$25,000 (5.2.6). [Attach only if project involves vendor expenditures exceeding \$25,000.]
- ☐ **Attachment E** DERA Option (5.2.12).
[Attach only if using DERA option.]
- ☐ **Attachment F** Attachment specifying amount of requested funding to be debited against each beneficiary's allocation (5.2.13).
[Attach only if this is a joint application involving multiple beneficiaries.]

CERTIFICATIONS

By submitting this application, the Lead Agency makes the following certifications:

1. This application is submitted on behalf of Beneficiary State of New Hampshire, and the person executing this certification has authority to make this certification on behalf of the Lead Agency and Beneficiary, pursuant to the Certification for Beneficiary Status filed with the Court.
2. Beneficiary requests and directs that the Trustee make the payments described in this application and Attachment A to this Form.
3. This application contains all information and certifications required by Paragraph 5.2 of the Trust Agreement, and the Trustee may rely on this application, Attachment A, and related certifications in making disbursements of trust funds for the aforementioned Project ID.
4. Any vendors were or will be selected in accordance with a jurisdiction's public contracting law as applicable. (5.2.5)
5. Beneficiary will maintain and make publicly available all documentation submitted in support of this funding request and all records supporting all expenditures of eligible mitigation action funds subject to applicable laws governing the publication of confidential business information and personally identifiable information. (5.2.7.2)

DATED: 5/12/26

Craig Wright
Director, Air Resources

ATTACHMENT B

PROJECT MANAGEMENT PLAN **PROJECT SCHEDULE AND MILESTONES**

Milestone	Date
Lead Agency Provides Notice of Availability of Mitigation Action Funds	9/7/2018
Release of RFPs soliciting public entity vehicle replacement projects, followed by scoring, selection and development of grant agreements	Fall 2023 to Summer 2026
Grantees Begin Project Implementation	After G&C Approval
Grantees Submit Reports to Lead Agency	Quarterly after G&C Approval until two years after acquisition of replacement unit. Annually for three years after the last quarterly report.
Lead Agency Reports to Trustee on Status of and Expenditures with Mitigation Actions Completed and Underway	Semi-Annual reports submitted January 30 th and July 30 th .

PROJECT BUDGET

Period of Performance: <u>June 2023 – October 2027</u>				
Budget Category	Total Approved Budget	Share of Total Budget to be Funded by the Trust	Cost-Share, if applicable (Entity #1)	Cost-Share, if applicable (Entity #2)
1. Equipment Expenditure	\$0*	\$3,425,588.40	\$0*	\$0*
2. Contractor Support <i>(Provide List of Approved Contractors as Attachment with approved funding ceilings)</i>	\$0	\$0	\$0	\$0
3. Subrecipient Support <i>(Provide List of Approved Subrecipients or Grant Awardees as Attachment with approved funding ceilings)</i>	\$0	\$0	\$0	\$0
4. Administrative ¹	\$0	\$513,838.26	\$0	\$0
Project Totals	\$0*	\$3,939,426.66	\$0*	\$0*
Percentage (excl. admin costs)	0%	0%	0%	0%

¹ Subject to Appendix D-2 15% administrative cap.

*Cost-share unknown. Not all vendors and locations have been selected yet through competitive bid solicitations.

PROJECTED TRUST ALLOCATIONS:

	2019 (Actuals)	2020 (Actuals)	2021 (Actuals)	2022 (Actuals)	2023 (Actuals)	2024 (Actuals)	2025 (Actuals)	2026 (Estimated)
1. Anticipated Annual Project Funding Request to be paid through the Trust	\$3,731,345	\$761,307	\$2,118,031	\$(128) ¹	\$439,306	\$730,837	\$3,519,346	\$13,939,083

	Totals:	\$4,392,809.00	\$3,425,588.40	\$967,220.60

Attachment 1

Explanation of how funding request fits into Beneficiary's Mitigation Plan (5.2.1):

The New Hampshire (NH) Volkswagen (VW) Environmental Mitigation Trust (EMT) Public Entity Vehicle Replacement Program, which is designed to fund the replacement of existing diesel engines and vehicles in public fleets, as well as the installation of marine shore power technology, fits into the Mitigation Plan by addressing the principal goal of NH's EMT to alleviate excess nitrogen oxide emissions caused by the VW violations through implementation of cost-effective projects in all regions of the state. Utilizing Trust funds for the replacement of publicly owned vehicles lowers operating and maintenance costs for these fleets and saves taxpayers money. The replacement and installation projects to be completed through this program will take place throughout the state, including in areas with historical air quality issues, and areas that receive a disproportionate quantity of air pollution from diesel fleets. The replacement of older diesel vehicles with newer, lower or zero emission vehicles maximizes air quality benefits by also reducing particulate matter emissions, greenhouse gas emissions, and the carcinogens associated with diesel exhaust. Use of municipal matching funds (i.e., cost share) for these projects serves to leverage investment of additional funds and expand the number and scope of projects to be served by the Trust.

Detailed Description of Mitigation Action Item Including Community and Air Quality Benefits (5.2.2):

Projects funded through this program will consist of public grantees across the state who will either replace older diesel vehicles and engines with newer, more efficient and lower or zero emissions vehicles and engines, or install marine shore power technology to eliminate emissions associated with diesel engine idling in marine vessels. These projects will result in air quality benefits to the state through reductions in NOx and particulate matter emissions, as well as reductions in greenhouse gas emissions. The projects will further benefit NH communities by lowering maintenance and fuel costs in public fleets, enabling taxpayer savings.

Estimate of Anticipated NOx Reductions(5.2.3):

Emissions reductions have been calculated using EPA's Diesel Emissions Quantifier (DEQ) tool for the projects received under the program's several solicitations. An estimated 3.83 tons of NOx are expected to be reduced through the lifetime of the twenty (20) projects selected for funding so far. In addition, it is estimated that these twenty (20) projects will result in a lifetime reduction of 0.35 tons of PM2.5 emissions. Further NOx and PM2.5 emissions reductions are anticipated as additional projects are selected through subsequent solicitations.

Describe any cost share requirement to be placed on each NOx source proposed to be mitigated (5.2.8).

State agency grantees are not required to provide any cost-share for their projects. Municipal grantees proposing diesel-to-diesel replacement projects are required to provide between 20% and 30% cost share. Municipal grantees proposing the replacement of diesel engines or vehicles with fully electric alternatives are required to provide a minimum 5% cost share, while those proposing to install marine shore power pedestals are required to provide a minimum 10% cost share for their projects.

Describe how the Beneficiary complied with subparagraph 4.2.8, related to notice to U.S. Government Agencies (5.2.9):

Pursuant to Section 4.2.8 of the EMT Agreement for State Beneficiaries, the New Hampshire Department of Environmental Services (NHDES), Lead Agency for the NH EMT, has made information pertaining to the availability of Trust funding for eligible mitigation activities publicly available. This notification was accomplished through the presentation of the NH Beneficiary Environmental Mitigation Plan and State Trust Agreement documents on the VW page of the NHDES website. The NH Beneficiary Environmental Mitigation Plan and State Trust Agreement documents had been initially made available on the website of the original Lead Agency, the NH Office of Strategic Initiatives, beginning on September 7, 2018. This information is now available on the VW page of the NHDES website: <https://www.des.nh.gov/business-and-community/loans-and-grants/volkswagen-mitigation-trust>

If applicable, describe how the mitigation action will mitigate the impacts of NOx emissions on communities that have historically borne a disproportionate share of the adverse impacts of such emissions (5.2.10):

Several of the municipal projects are in or abut areas which historically have been affected disproportionately by air pollution in adverse ways. Eligible projects are scored competitively (see RFP for full details) with bonus points awarded in the “Priority NH Communities” criterion if the project is located in—or has impacts on—a NH community experiencing high levels of individuals living below the poverty level.
